1894.

REPORT.

DURING the quarter ending 31st March 1894, there were registered in Scotland 30,776 Births, 20,181 Deaths, and 6391 Marriages. On reference to Table III. it will be seen that these numbers are all below the average for the corresponding quarter during the last ten years.

TABLE I.—Births, Deaths, and Marriages in Scotland, its Groups of Districts and Divisions during the Quarter ending 31st March 1894, with their Proportion to the Population, also the Illegitimate Births, and their Proportion to the Total Births.

BIRTHS.

30,776 Births were registered during the quarter, being at the annual rate of 303 per ten thousand of estimated population, or 3·03 per cent.

In the Large Town Districts the Annual Birth-rate was 326 for every ten thousand persons; in the Principal Town Districts, 317; in the Small Town Districts, 309; in the Mainland-Rural Districts, 269; and in the Insular-Rural Districts, 225.

The annual Birth-rate for every ten thousand persons in Perth was 250; in Edinburgh, 263; in Dundee, 300; in Leith, 302; in Greenock, 307; in Aberdeen 308; in Paisley, 333; and in Glasgow, 334.

Of the 30,776 Births, 2400, or 7·8 per cent., were illegitimate. In the Insular-Rural Districts, 5·7 per cent. of the Births were illegitimate; in the Large Town Districts, 6·1; in the Small Town Districts, 6·9; in the Principal Town Districts, 7·4; and in the Mainland-Rural Districts, 10·9 per cent.

A comparative statement of the rate of illegitimacy in the Divisions and Counties of Scotland will be found in Tables I. and II. Table I. shows that as usually happens the rate of illegitimacy was highest in the North-Eastern and Southern Divisions; the rate in the former being 13·8, and in the latter 12·5 per cent. From Table II. it will be seen that in ten of the Counties the rate of illegitimacy was 10 per cent. and over, ranging in these same from 10·3 per cent. in Perth to 18·3 per cent in Wigtown.

Of the 30,776 Births, 15,718 were of males, and 15,058 of females, being in the proportion of 104 males for every 100 females. 10,724 Births were registered during January, being at the rate of 346 daily; 9311 during February, or 333 daily; and 10,741 during March, or 346 daily.

TABLE II.—Percentage of Illegitimate to the Total Births in the Counties of Scotland, during the Quarter ending 31st March 1894.

DEATHS.

The Deaths of 20,181 persons were registered in Scotland during the quarter, being at the annual rate of 198 for every ten thousand of estimated population, or 1·98 per cent. This rate is 0·15 below the average for the quarter during the last ten years

The number of Deaths registered in England and Wales during the quarter was 147,994, being at the rate of 200 for every ten thousand of the estimated population.

TABLE III.—Number of Births, Deaths, and Marriages in Scotland and their Proportion to the Population, estimated to the middle of each year, during each Quarter of the Years 1883 to 1893 inclusive.

The Death-rate for every ten thousand persons in the Principal Town Districts was 208 ; in Insular-Rural Districts, 202 ; in the Large Town Districts, 200 ; in the Small Town Districts, 189 ; and in the Mainland-Rural Districts, 189,

In Perth, the Death-rate per ten thousand persons was 264 ; in Dundee, 222 ; in Glasgow, 219 ; in Leith, 212 ; in Aberdeen, 205 ; in Greenock, 192 ; in Paisley 191 ; and in Edinburgh, 187.

Of the 20,181 Deaths, 10,002 were of males, and 10,179 of females. 7498 Deaths were registered during January, or 242 daily ; 6114 during February, or 218 daily ; and 6569 during March, or 212 daily.

MARRIAGES.

6391 Marriages were registered in Scotland during the quarter, being at the annual rate of 63 for every ten thousand of estimated population, or 0·63 per cent.

This rate is 0·02 below the average for the quarter during the preceding ten years.

In the Principal Town Districts, Marriages occurred at the rate of 78 for every ten thousand of estimated population ; in the Large Town Districts, at the rate of 68 ; in the Small Town Districts the rate was 57 ; in the Insular Rural Districts, 47 ; and in the Mainland-Rural Districts, 41.

Marriages occurred in Glasgow at the rate of 87 for every ten thousand of estimated population ; Perth, 82 ; Dundee, 77 ; Edinburgh, 75 ; Aberdeen, 74 ; Paisley, 74 ; Leith, 70 ; and Greenock, 55.

3418 Marriages were registered during January, or an average of 110 daily, 1394 during February, or 50 daily, and 1579 during March, or 51 daily.

INCREASE OF POPULATION AND EMIGRATION.

The number of Births for the quarter being 30,776, and of Deaths, 20,181, the natural increase of the population, not allowing for changes consequent on emigration or immigration, was 10,595. No reliable estimate of the number of immigrants can be formed ; but in regard to emigrants it is found from the Returns furnished by the Board of Trade that the number of these amounted to 33,038 during the quarter, of whom 16,801 were English, 2093 Scottish, 3022 Irish, and 9381 Foreigners, while of 871 the nationality was not distinguished, but 58 of them may be assumed to be Scottish. If then 2093 + 58, the number of Scottish emigrants be deducted from the number representing the excess of Births over Deaths, we have 8444 as the probable increase of the population for the quarter.

TABLE IV.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight of the Principal Towns of Scotland, during the Quarter ending 31st March 1894.

DISEASES IN THE ABOVE PRINCIPAL TOWNS.

About 36 per cent. of the population of Scotland, being resident in these towns, it may be assumed that diseases prevailing in them may also be found to a corresponding extent throughout the country.

From all causes there occurred 2846 Deaths in January, 2310 in February, and 2524 in March; and of these, 124 in January, 99 in February, and 84 in March, were from ill-defined or unspecified causes.

Miasmatic Diseases caused 333 deaths in January, or 2·64 per thousand of estimated population; 286 in February, or 2·51 per thousand; and 285 in March, or 2·26 per thousand.

Ten deaths in January, 8 in February, and 4 in March, were attributed to Small-Pox, of which 17 occurred in Leith, 4 in Edinburgh, and 1 in Glasgow.

Measles caused 9 deaths in January, 3 in February, and 15 in March. Scarlet Fever caused 29 deaths in January, or 0·23 per thousand of estimated population; 32 in February, or 0·28 per thousand; and 37 in March, or 0·29 per thousand. Hooping Cough was the cause of 182 deaths in January, or 1·45 per thousand; 152 in February, or 1·34 per thousand; and 155 in March, or 1·23 per thousand. To Diphtheria were attributed 44 deaths, or 0·35 per thousand in January; 49, or 0·43 in February; and 33, or 0·26 in March. To Fevers were ascribed 14 deaths, or 0·11 per thousand, in January; 24, or 0·21 per thousand, in February; and 26, or 0·21 per thousand, in March.

Diarrhoea and Dysentery caused 50 deaths in January, or 0·40 per thousand of estimated population; 29 in February, or 0·25; and 36 in March, or 0·29.

Venereal Diseases were stated to caused have 10 deaths in January, 11 in February, and 8 in March.

From Intemperance there resulted 12 deaths in January, 3 in February, and 8 in March.

To Constitutional Diseases were attributed 514 deaths in January, 418 in February, and 513 in March; and of these 100 in January, 101 in February, and 91 in March, were from Cancer; and 282, or 2·24 per thousand of estimated population, in January, 221, or 1·94 per thousand in February, and 290, or 2·30 per thousand, in March, were from Phthisis.

To Developmental Diseases were ascribed 188 deaths in January, 154 in February, and 156 in March.

Diseases of the Nervous System were the cause of 319 deaths in January, 254 in February, and 304 in March.

Diseases of the Respiratory System caused 641 deaths in January, 494 in February, and 493 in March; and of these, 18 in January, 18 in February, and 12 in March, were from Croup; 317 in January, 250 in February, and 219 in March, were from Bronchitis; and 242 in January, 179 in February, and 199 in March, from Pneumonia.

Diseases of the Digestive System caused 154 deaths in January, 155 in February, and 153 in March.

Diseases of the Urinary System caused 53 deaths in January, 65 in February, and 65 in March.

Parturition, or conditions in connection therewith, including Puerperal Fever, caused 19 deaths in January, 13 in February, and 25 in March.

To Violent Causes were attributed 111 deaths in January, 65 in February, and 101 in March.

WEATHER.

The following remarks on the weather of the quarter are extracted from the Meteorological Returns which appear in the Registrar-General's Monthly Reports :—

January was characterised by a low pressure with a large range, a mean temperature slightly under the average, with a mean daily range about a degree above it, and wind, as regards direction, nearly the average, but of a force much above it.

February was characterised by a rainfall, heavy beyond precedent, being 165 per cent. above the average of the month; by rapid and large fluctuations of the barometer; by a barometric monthly range unusually large, being only exceeded by the Februaries of 1860 and 1867; and by a succession of widespread storms of wind, frequently very violent.

March was characterised by a mean temperature and daily range both greatly above the average, a marked predominance of W., S.W., S., and S.E

winds, and a deficiency of E., N.E., N., and N.W., winds; and an excess of rainfall in the west, and a deficiency in the east of the country.

The mean height of the barometric column, reduced to sea-level and 32° Fahr., was 29·615 inches in January, 29·681 inches in February, and 29·784 inches in March. The mean temperature for the quarter was 39°·2, being 1°·1 above the average mean temperature for the quarter during the previous ten years. The mean temperature during January was 36°·6, during February 38°·6, and during March 42°·4. The absolute highest temperature was 57°·0 during January, 59°·0 during February, and 71°·3 during March; the absolute lowest being -4°·0 during January, 3°·8 during February, and 20°·0 during March. Rain fell on 21 days in January, on 21 in February, and on 12 in March; the mean depth being 4·85 inches in January, 7·05 in February, and 2·73 in March. Winds with an easterly direction blew on 7 days in January, on 3 in February, and on 5 in March. Winds with a westerly point blew on 16 days in January, on 19 in February, and on 18 in March. Northerly winds blew on 5 days in January, on 4 days in February, and on 5 days in March. Southerly winds blew on 16 days in January, on 13 days in February, and on 13 days in March.

Note.—The population of most of the Registration Counties differs slightly from that of the Civil Counties, in consequence of Parishes extending to more than one County being held by the Registration Act to be within the County in which the *Parish Church* happens to be situated. For the particular constitution of each Registration District see Report on Census of Scotland for 1891, Vol. I., page 239, *et seq.*

[illegible]

N. B.—Districts containing Parliamentary and Royal Burghs are printed in capitals, thus :—EDINBURGH. Districts containing Towns of 2000 Inhabitants and upwards are printed in small capitals, thus :—CARLUKE.

An asterisk “*” is prefixed to those Districts which have different names from the Parishes in which they are situated, or are comprised of more, or parts of more, than one Parish, and the component parts of these Districts will be found on page 43.

A dagger “†” is prefixed to those Districts which consist of only a part of the Civil Parish of the same name.

58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross and part of Gairloch.
59b	Carnoch	Parts of Contin and Urray.
86b	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs and part of Uig.
92b	Cannich	Parts of Kilmorack and Kiltarlity & Convinth.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
135	Elgin	Elgin, and parts of New Spynie, and St Andrews-Lhanbryde.
152	Enzie	Parts of Bellie and Rathven.
155b	Glenrinnnes	Parts of Aberlour and Mortlach.
167	Seafeld	Parts of Cullen and Rathven.
171b	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210b	Kinninmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone and part of Glenmuick, Tullich and Glengairn,
222b	Millbren	Parts of Fyvie and Monquhitter.
227b	New Pitsligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
237b	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249b	Ythan Wells	Parts of Auchterless and Forgue.
272	Arbroath	Arbroath, and part of St Vigean.
282	Dundee	Dundee, and part of Liff, Benvie and Invergowrie,
294b	Kilry	Parts of Glenisla and Lintrathen.
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
328b	Ardoch	Parts of Blackford, Dunblane, and Muthill.
330	Auchtergaven	Parts of Auchtergaven and Monzie.
331	Balquhidder	Balquhidder, and part of Comrie.
337	Caputh	Parts of Caputh, Clunie, and Dunkeld & Dowally.
339	Clunie	Parts of Caputh and Clunie.
344	Dowally	Part of Dunkeld & Dowally.
349	Dunkeld	Part of Dunkeld & Dowally.
355b	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Little Dunkeld, Methven, and Monzie.
379	Meikle	Meikle and part of Coupar-Angus.
386b	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and parts of Kinnoull and Scone.
393b	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394b	Strathfillan	Part of Killin.
394c	Tenandry	Parts of Blair-Athol and Moulin.
402	Anstruther-Easter	Anstruther-Easter and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino and part of Crail.
442	Kirkcaldy and Abbotshall	Kirkcaldy, Abbotshall, and part of Kinghorn.
481b	Grangemouth	Parts of Bothkennar, Falkirk, and Polmont.
490	Stirling	Stirling, and part of St Ninians.
496	Dumbarton	Dumbarton and part of Cardross.
506	Ballachulish, etc.	Part of Kilmallie.
509	Cumlodden and Minard	Parts of Glassary and Glenaray.
513	Inveraray	Inveraray and part of Glenaray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
525	Lismore	Lismore and Appin, and part of Kilmallie.
526	Lochgilphead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardochattan and Muckairn, and Glenorchy and Inishail.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow)	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelve	Part of Pennygown and Torosay.
547	Portnahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
556	Lochranza	Parts of Kilbride and Kilmory.
557	North Bute	North Bute, and part of Rothesay.

NOTES ON THE NUMERICAL RETURNS OF SCOTTISH METEOROLOGY
FOR THE QUARTER ENDING 31st MARCH 1894.

By Dr BUCHAN, under the direction of the Council of the Scottish Meteorological Society.

THESE returns are founded on the observations made, morning and evening, at 67 of the Stations of the Scottish Meteorological Society, and have been prepared from the Observers' separate schedules.

From the individual results for each station, the following collective results have been obtained, assuming them to have been equally well observed, and to represent the whole country :—

COLLECTED RETURNS FOR ALL THE ACCEPTED STATIONS OF THE SCOTTISH METEOROLOGICAL SOCIETY, HAVING A MEAN LATITUDE = 56° 32' N.; MEAN LONGITUDE = 3° 44' W.; AND MEAN ELEVATION = 283 Feet.

And when these results are compared with the average of 1856-93, during the same months, they show the following characteristics and differences :—

JANUARY 1894—

Mean Barometric Pressure, 29·615 inches; less than the average of 1856-93 by 0·169 inch.

Monthly Range, 1·826 inch; greater by 0·394 inch.

Mean Temperature, 36°·6; less by 0°·5.

Mean Daily Range, 10°·3; greater by 1°·1.

Mean of Black Bulb in Sun, 49°·1; equal to the average.

Do. at Night, 26°·7; less by 1°·6.

Mean Humidity, 86; less by 2.

Rain, Number of Days, 21; greater by 4.

Rain, Depth in Inches, 4·85; greater by 0·94 inch.

Wind, Pressure on Square Foot, 3·35 lbs.; greater by 1·20 lb.

Wind, Direction of, E. to W. as 4 to 11, and N. to S. as 4 to 11; in place of E. to W. as 5 to 6, and N. to S. as 4 to 9.

Hours of Sunshine, 47; less by 15.

Mean Amount of Cloud, 6·0; less by 2·6.

FEBRUARY 1894—

Mean Barometric Pressure, 29·681 inches ; less than the average of 1856–93 by 0·169 inch.
 Monthly Range, 1·878 inch ; greater by 0·394 inch.
 Mean Temperature, 38°·6 ; greater by 0°·2.
 Mean Daily Range, 10°·7 ; greater by 0°·6.
 Mean of Black Bulb in Sun, 55°·7 ; less by 0°·9.
 Do. at Night, 28°·6 ; less by 0°·4.
 Mean Humidity, 85 ; less by 2.
 Rain, Number of Days, 21 ; greater by 7.
 Rain, Depth in inches, 7·05 ; greater by 4·05.
 Wind, Pressure on Square Foot, 3·49 lbs. ; greater by 1·39 lb.
 Wind, Direction of, E. to W. as 2 to 14, and N. to S. as 3 to 9 ; in place of, E. to W. as 5 to 10, and N. to S. as 4 to 7.
 Hours of Sunshine, 60 ; less by 26.
 Mean Amount of Cloud, 6·8 ; less by 0·4.

MARCH 1894—

Mean Barometric Pressure, 29·784 inches ; less than the average of 1856–93 by 0·048 inch.
 Monthly Range, 1·520 inch ; greater by 0·090 inch.
 Mean Temperature, 42°·4 ; greater by 3°·0.
 Mean Daily Range, 16°·5 ; greater by 4°·5.
 Mean of Black Bulb in Sun, 76°·0 ; greater by 11°·4.
 Do. at Night, 28°·3 ; less by 0°·8.
 Mean Humidity, 82 ; less by 3.
 Rain, Number of Days, 12 ; less by 3.
 Rain, Depth in Inches, 2·73 ; less by 0·03 inch.
 Wind, Pressure on Square Foot, 1·68 lb. ; less by 0·45 lb.
 Wind, Direction of, E. to W. as 4 to 13, and N. to S. as 3 to 9 ; in place of E. to W. as 6 to 10, and N. to S. as 6 to 6.
 Hours of Sunshine, 164 ; greater by 40.
 Mean Amount of Cloud, 4·5 ; less by 1·8.

ence in JANUARY 1894, the chief Meteorological characteristics of the month were low atmospheric pressure, with unusually large variation, being the largest range in January since 1868 ; mean temperature half a degree under the average, due wholly to the greater cold of the nights ; humidity a little under the mean ; a rainfall 23 per cent. in excess of the average, and rainy days 4 in excess ; a slight excess of southerly over northerly winds ; and a wind force 50 per cent. above the average of January.

The diminution of atmospheric pressure was relatively greater in the north and west than in the east and south. During the five cyclones which swept over the country, gradients were frequently formed for very strong winds, and the accompanying wind storms overspread regions of exceptionally large extent. The fluctuations of the barometer during the storm of the 28th–29th were unusually large. Thus on the morning of the 29th, the barometer rose 1·040 inch in seven hours.

The mean temperature at all the Stations was under the average, the deficiency being greater in Shetland where it was 2°·0, and least at Southern Stations where at many places it just exceeded the average. A noteworthy feature of the month was the low temperature which prevailed from the 6th to the 8th. The absolute minimum for the month occurred then, being –4°·0 at Braemar and Perth on the 6th and 7th respectively. At the Schoolhouse of Logie Coldstone temperature fell on the 7th to –7°·6, being so far as known the lowest protected temperature that was observed in Scotland during this cold period. It is interesting to note that on the 6th temperature fell to zero on the top of Ben Nevis, being the lowest hitherto observed there. The absolute maximum temperature was 57°·0 at Smeaton on the 10th.

The rainfall was very irregularly distributed. It was under the average on the foreshores, looking north of the Firth of Forth, the Moray Firth and Pentland Firth, and also in Berwickshire, and large portions of Galloway and Ayrshire. Elsewhere it was above the average, and very largely so over the central districts of the Spey, Dee, and Tay. Thus it exceeded the average at Braemar by 103 per cent. ; 90 per cent. at Aviemore ; 87 per cent. at Fort Augustus and 76 per cent. at Lednathie. At Stations near the coast, the greatest excess was 73 per cent. at Poltalloch. On the other hand the deficiency was 46 per cent. near Cromarty and 39 per cent. at Haddo House.

Thunder and lightning were reported from 17 Stations, well distributed over the country except in the south, the only instance reported there being from Cally.

Aurora was only reported from Gordon Castle and Boyndie.

FEBRUARY was also characterised by a low atmospheric pressure, with a range higher than has been noted in February since 1868 ; a mean temperature and range only slightly above the average a quite remarkable excess of south westerly, and deficiency of north easterly winds ; sunshine much under the average ; and a rainfall, 7·05 inches, large beyond precedent. The next largest rainfall for February was 4·51 inches in 1886. During the past 38 years, the largest monthly rainfall for Scotland for any month was 7·57 inches, in December 1876. When allowance is made for the shorter month, February 1894 was thus the wettest month in the history of the Society.

The diminution of atmospheric pressure below the normal of the month, rapidly increased from south to north. Thus while on the Solway Firth it was only 0·045 inch, it rose successively to 0·92 inch at Glasgow ; 0·155 inch at Inverness ; 0·222 inch at Kirkwall ; and 0·343 inch at North Unst. Unusually rapid decrease and increase of pressure occurred at different times, which so far as known were unprecedented in Scottish barometric records. In one hour, from 4 to 5 a.m. of the 12th, the barometer rose 0·307 inch at Edinburgh and similar extraordinary readings were made at Stornoway.

The mean temperature was $0^{\circ}2$ above the average, the slight excess being occasioned by the warmer days. The distribution over the country, however, was peculiar. To the north of Inverness it was under the average, while to the south it exceeded the average. The greatest deficiency was $1^{\circ}5$ at Wick and Dunrobin, and the greatest excess about $1^{\circ}5$ to the south of the Tweed and Clyde. The absolute maximum temperature was $59^{\circ}0$ at Haddington on the 7th; and the absolute minimum $3^{\circ}8$ at Braemar on the 15th.

The almost unbroken succession of large cyclones which swept over north-western Europe during the month, on tracks to the north of Scotland, were accompanied by heavy long continued south-westerly winds, and phenomenally heavy rains. The result as already stated, raised the rainfall of this month higher than any previously recorded month. The largest amounts among the stations were 16.79 inches at Stronvar; 14.93 inches at Glencarron; 14.82 inches at Dalnaspidal; 14.47 inches at Fort-William; and 14.07 inches at Greenock. As compared with their averages, the greatest excess was 333 per cent. above the average at North Esk Reservoir; and from this point all round with a line passing through Duns, Stobo, Paisley, and Loch Leven Sluice, the excesses exceeded 200 per cent. Also at Fort Augustus, Inverness, Aviemore, Dalnaspidal, and Lednathie, excesses of upwards of 200 per cent. were recorded. Over about two-thirds of the whole of Scotland the rainfall was more than double the average of the month. On the other hand at Aberdeen the excess was only 20 per cent., and at New Pitsligo 7 per cent. above their averages; but at Peterhead and Haddo House the amounts were 18 per cent. less than the averages.

Thunder and Lightning were reported from 21 stations giving the rather large average of 3.

Auroras were observed at 20 stations in all parts of the country, with an average of 2.

MARCH 1894, as well as March of the previous year, is remarkable for its high temperature, particularly the high temperature of the days, which are higher than any other March hitherto recorded; range of temperature absolutely the largest recorded; a great excess of south-westerly, and deficiency of north-easterly winds, similar to what occurred in February; a rainfall much under the average in the east and south, but elsewhere above it; the smallest amount of cloud, and the largest number of hours of sunshine ever recorded by the Society's observers.

Atmospheric pressure was slightly under, and range slightly above the average. To the south of the Forth and Clyde, pressure was above the average, the greatest excess 0.020 inch being found on the Solway; whereas to the north it was under the average, the greatest deficiency 0.129 inch being at North Unst. Pressure was everywhere higher than in February, but the manner of its distribution was the same, and the resulting winds also the same, viz., a great excess of south-westerly and defect of north-easterly winds.

Mean temperature was $3^{\circ}0$ above the average, the days being $5^{\circ}3$, and the nights only $0^{\circ}8$ in excess,—the result of the unwonted clearness of the sky, and the strong continued sunshine which followed. This high temperature was equally distributed over all districts. The absolute maximum temperature was $71^{\circ}3$ at Roshven on the 27th, which is the highest recorded since 1855; and the absolute minimum $20^{\circ}0$ on the 17th at Stobo, Dalnaspidal, and Lednathie.

While the rainfall was the average, it was most unequally distributed. A line drawn from the south of the Hebrides, through Poltalloch, Paisley, Stobo, Ochertyre, Braemar, Inverness, and thence to Cape Wrath, marks off the part of Scotland where the rainfall was everywhere above the average, the greatest excess being 132 per cent. at Fort Augustus. In other districts less than the average amounts were collected, the greatest deficiency being 89 per cent. at Haddo House, and 84 per cent. at Boyndie. It nearly all fell during the first 11 days of the month.

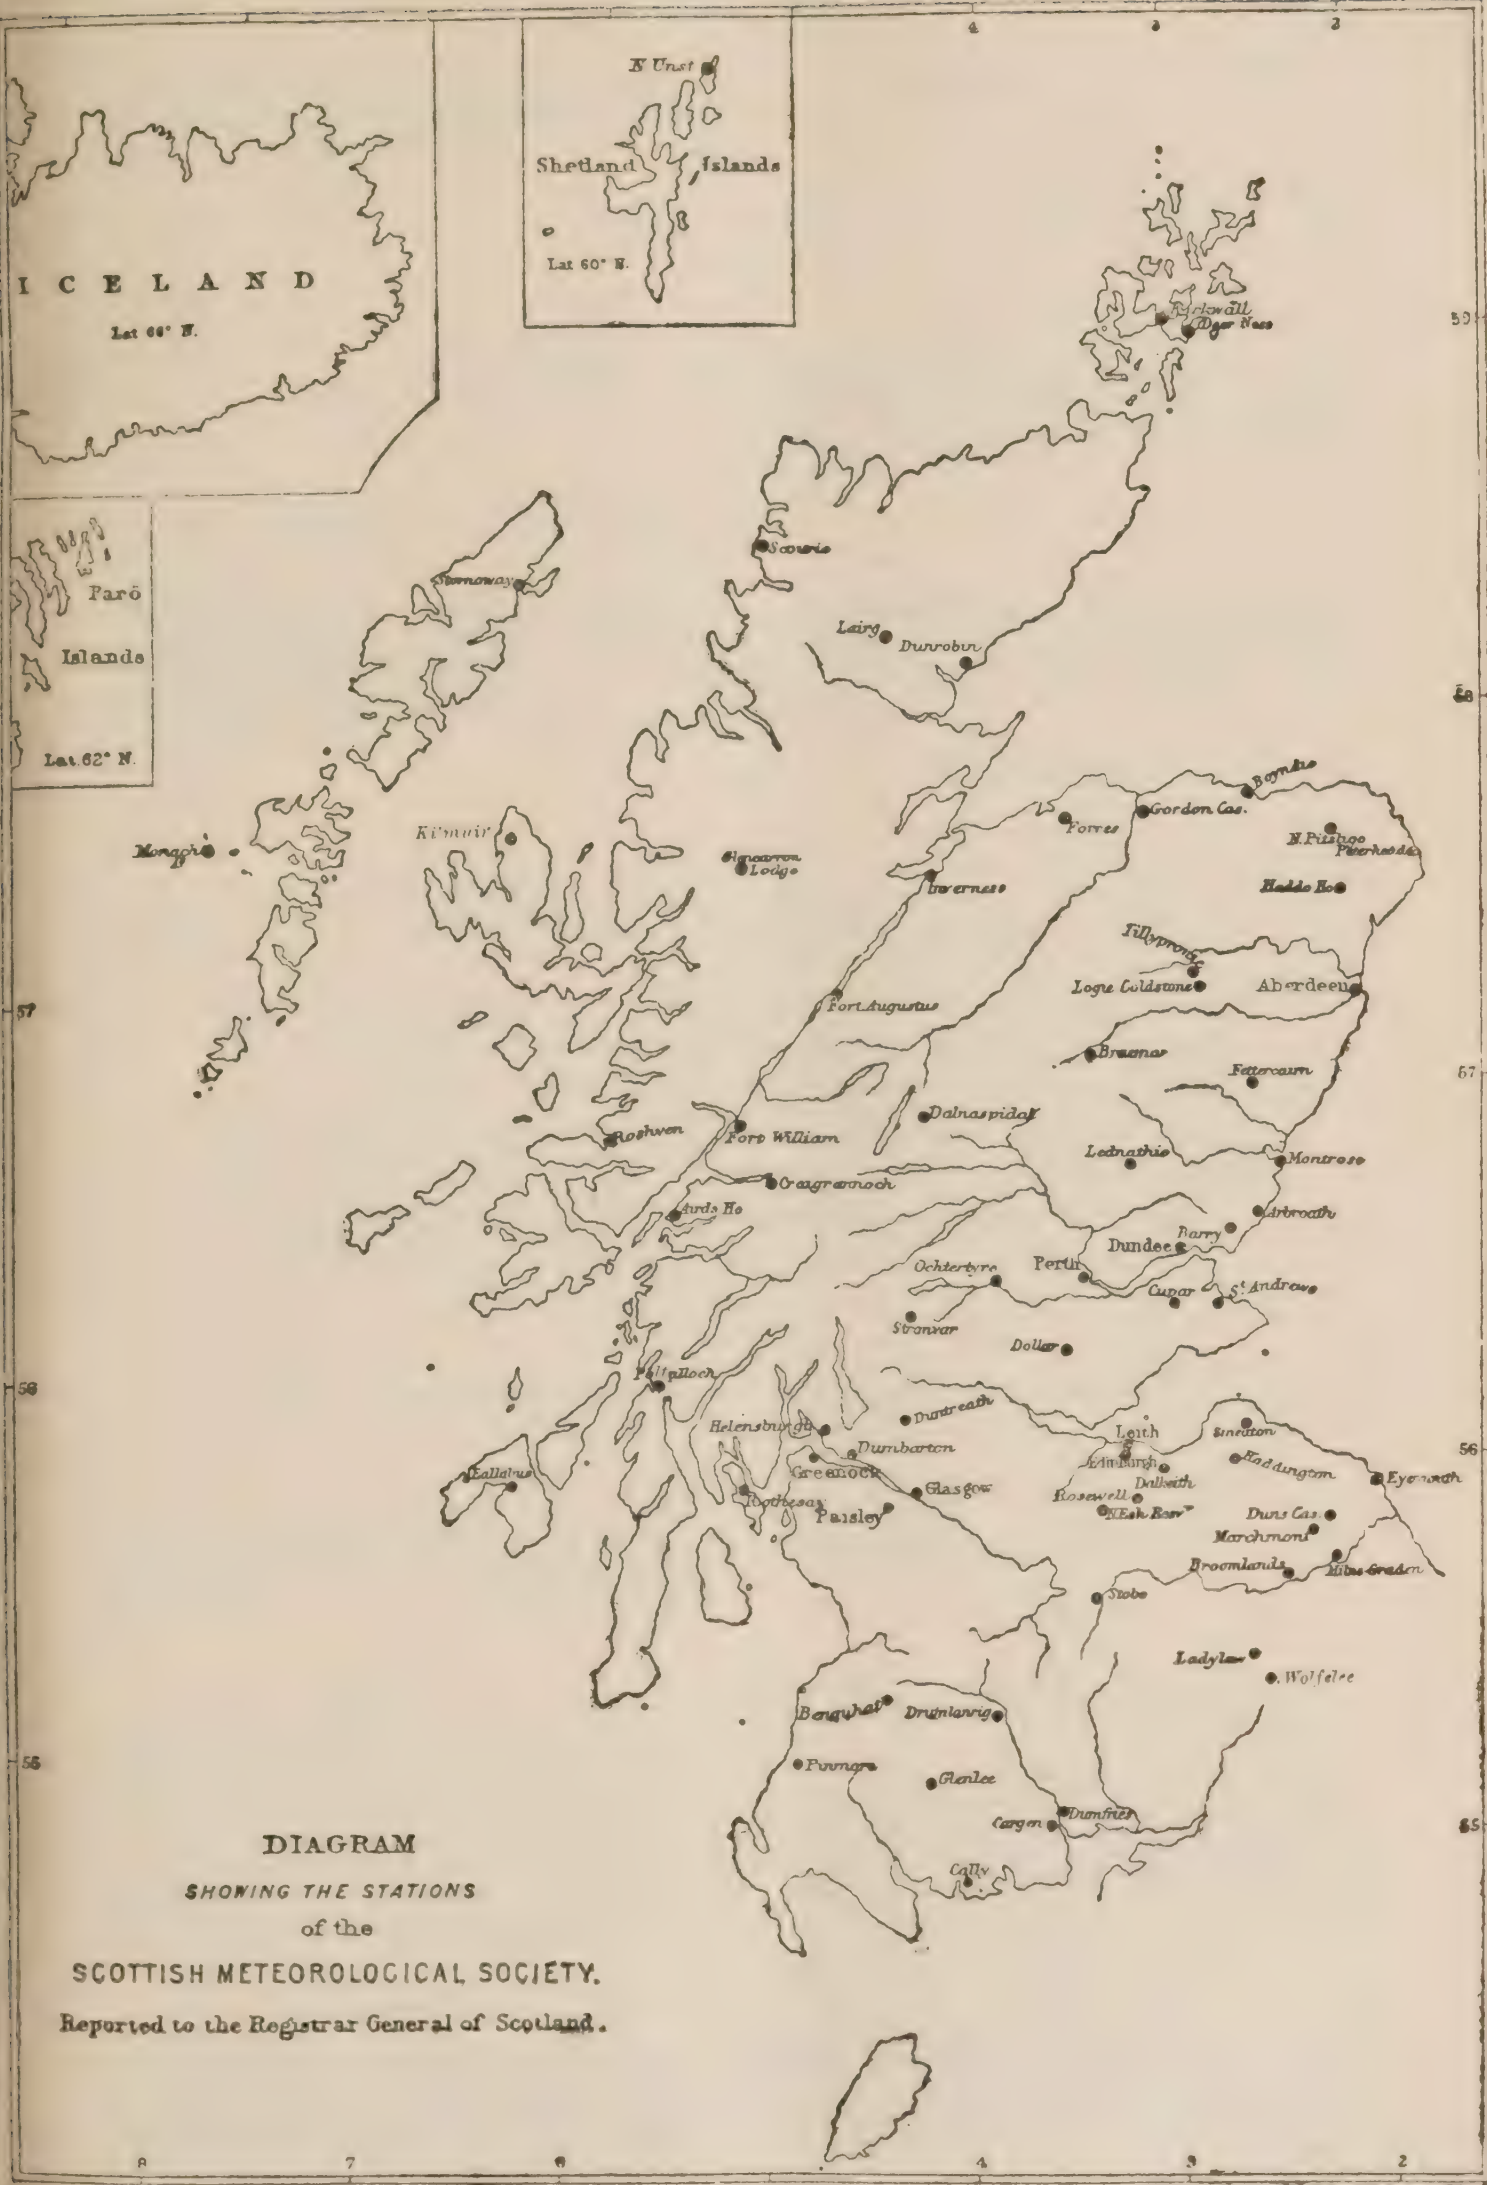

Thunder and Lightning occurred at 15 stations, with average of 1; and Auroras at 19 stations, with average of 2.

ABSTRACT OF METEOROLOGICAL OBSERVATIONS IN SCOTLAND, for the Quarter ending 31st March 1894.

REGISTRARS' NOTES.

IN compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

INSTRUCTIONS TO REGISTRARS.

“If at any time the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, &c., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance.”

The Figures refer to the Numbers of the Districts in the preceding Tables.

I. NORTHERN DIVISION.

1. SHETLAND.

4. FETLAR.—The two deaths registered were of a woman aged 95 years, and of a girl aged two months.

6 (1). MID AND SOUTH YELL.—Influenza of a mild type prevalent. Owing to the wet and stormy winter deaths are above the average.

11. UNST.—Schools closed on account of an epidemic of Hooping Cough.

2. ORKNEY.

13. BIRSAY.—Births below and deaths above the average. One death caused by Hooping Cough, which was prevalent.

30. STROMNESS.—Deaths, principally of old people, above the average.

33 (1). WESTRAY.—Death-rate, owing to an epidemic of Influenza, very much above the average. The ages of 12 of the persons who died averaged 79 years.

3. CAITHNESS.

36. DUNNET.—Four of the eight deaths registered were of persons aged respectively 82, 85, 88, and 91 years.

40. REAY.—The deaths of six men were caused by the wreck of a trawler at Dounreay.

41. THURSO.—One death from Typhus Fever and one from Enteric Fever occurred in January.

4. SUTHERLAND.

45. CLYNE.—Deaths above the average. Four were of females over 84 years of age.

49 (2). KINLOCHBERVIE.—The deaths of the four males in January resulted from drowning.

53. LAIRG.—Two of the five deaths were of persons aged 80 and 92 years respectively. A girl aged 13 years committed suicide.

II. NORTH-WESTERN DIVISION.

5. ROSS AND CROMARTY.

Mainland.

58 (1). APPLECROSS.—Deaths above the average. Four resulted from accidental drowning.

71A (1). KINCARDINE.—Of the seven deaths registered three were of persons aged 81, 92, and 94 years respectively.

75 (1). LOCHBROOM.—Five of the deaths were of children under two years of age. A crofter's widow died at the age of 95 years.

82. TAIN.—Six of the 10 deaths were of persons aged respectively 95, 93, 88, 82, 80, and 80 years.

Insular.

88. STORNOWAY.—Nine deaths were caused by Influenza, and seven resulted from accidental drowning.

6. INVERNESS.

Mainland.

90 (a). ABERNETHY AND KINCARDINE.—The six deaths registered were of persons respectively aged 96, 94, 87, 87, 84, and 77 years.

94. CROY AND DALCROSS.—One of the deaths was that of a woman said to have been 105 years of age.

95. DAVIOT AND DUNLICHTY.—Five of the deaths were of persons respectively aged 76, 85, 86, 88, and 92 years. Two resulted from accidental causes.

96 (a). DORES.—Two deaths resulted from Typhoid Fever, which is now prevalent in the Stratherrick part of the district.

99 (2). LOCHABER.—Births below, and deaths above the average. Severe colds very prevalent during January and February.

103. KIRKHILL.—Scarlet Fever of a mild type prevalent.

Insular.

110 (1). DUIRINISH.—Six of the persons whose deaths were recorded were over 70 years of age. One death resulted from Influenza, and three from Scarlet Fever.

111 (2). SOUTH HARRIS.—Of the 13 deaths registered during the quarter, three were of infants under 10 months old, and eight of persons aged 34, 36, 49, 57, 75, 80, 80, and 82 years respectively. One death resulted from Typhus and another from Enteric Fever.

114 (1). PORTREE.—Three of the 12 deaths were of persons aged respectively 83, 91, and 98 years.

114 (2). RAASAY.—Scarlet Fever prevalent.

117 (1). NORTH SNIZORT.—The six deaths recorded were of persons aged respectively 74, 82, 84, 88, 85, and 92 years.

III. NORTH-EASTERN DIVISION.

7. NAIRN.

121. AULDEARN.—A few cases of Scarlet Fever occurred.

8. ELGIN (OR MORAY).

136. NEW SPYNIE.—One of the births and five of the deaths took place in the Morayshire Union Poorhouse. The average age of the seven persons who died is 71 years.

9. BANFF.

159. KEITH.—13 of the deaths were of children under one year of age, nine of persons above 70 years, four above 80, and one that of a female aged 92 years.

10. ABERDEEN.

172. AUCHINDOIR AND KEARN.—Deaths above the average. The 11 deaths registered were of persons aged respectively—males, one month, three months, 14 months, 85, 85, and 89 years; females, 48, 55, 65, 72, and 77 years. Influenza and Measles prevalent. One death was caused by Influenza in January, and one by Measles in February.

178. CAIRNEY.—Two of the deaths were of infants under three months old. The remaining six were of persons whose average age was over 72 years.

183 (1). BRAEMAR.—Measles prevalent.

201. GLENMUICK, TULLICH, AND GLENGAIRN.—One death was caused by exposure.

222a. MIDMAR.—One of the females who died during March was 100 years of age.

231 (1). EAST PETERCULTER (LANDWARD).—Four of the deaths were of persons aged respectively 89, 89, 83, and 77 years.

241. STRICHEN.—Four deaths were caused by Diphtheria.

243. TARVES.—Two of the three deaths were of persons above 84 years of age.

247. TURRIFF.—Influenza prevalent.

249b. YTHAN WELLS.—Influenza prevalent during January.

IV. EAST-MIDLAND DIVISION.

12. FORFAR.

288. FORFAR.—Hooping-Cough prevalent.

289. GLAMIS.—Measles prevalent during February and March.

307 (1). MAINS (LANDWARD).—Births below and deaths above the average. Two persons died at the age of 76 years, and one was over 80 years.

308. MARYTOWN.—One death resulted from a railway accident.

Ardclach, 120	Barrhill, 582	Brydekirk, 813	Channelkirk, . . . 729	Crief, 342

* The actual number of Districts is 1056—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 5 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place *compound* names in the order in which they are pronounced.

QUARTERLY RETURN
OF THE
BIRTHS, DEATHS, AND MARRIAGES
REGISTERED IN THE
DIVISIONS, COUNTIES, AND DISTRICTS
OF
SCOTLAND.

QUARTER ENDING 30th JUNE 1894.

PUBLISHED BY AUTHORITY OF THE REGISTRAR-GENERAL

No. CLVIII.

EDINBURGH:
PRINTED FOR HER MAJESTY'S STATIONERY OFFICE,
By NEILL & CO., OLD FISHMARKET CLOSE,
And Sold by
JOHN MENZIES & CO., 12 HANOVER STREET, EDINBURGH, and
90 WEST NILE STREET, GLASGOW.

1894.

REPORT.

DURING the quarter ending 30th June 1894, there were registered in Scotland 31,685 Births, 17,510 Deaths, and 7139 Marriages. From Table III. it will be seen that the Births and Deaths are below, and the Marriages above, the average for the corresponding quarter of the previous ten years.

TABLE I.—Births, Deaths, and Marriages in Scotland, its Groups of Districts and Divisions during the Quarter ending 30th June 1894, with their Proportion to the Population, also the Illegitimate Births, and their Proportion to the Total Births.

BIRTHS.

31,685 Births were registered during the quarter, being at the annual rate of 308 per ten thousand of estimated population, or 3·08 per cent.

In the Large Town Districts the Annual Birth-rate was 328 for every ten thousand persons; in the Principal Town Districts, 324; in the Small Town Districts, 317; in the Mainland-Rural Districts 273; and in the Insular-Rural Districts, 210.

In Perth the annual Birth-rate for every ten thousand persons was 272; in Edinburgh, 287; in Dundee, 303; in Leith, 304; in Aberdeen, 307; in Paisley, 317; in Greenock, 336; and in Glasgow, 343.

Of the 31,685 Births, 2207, or 7·0 per cent., were illegitimate. In the Large Town Districts, 5·3 per cent. of the Births were illegitimate; in the Insular-Rural Districts, 6·5; in the Principal Town, and in the Small Town, Districts, 6·7; and in the Mainland-Rural Districts, 9·0 per cent.

A comparative statement of the rate of illegitimacy in the Divisions and Counties of Scotland will be found in Tables I. and II. From Table I. it will be seen that the rate of illegitimacy was, as usual, highest in the North-Eastern and Southern Divisions, being the same in each, viz., 11·8 per cent. Table II. shows that in eleven of the Counties the rate of illegitimacy was over 10 per cent. The lowest rate was 2·8 per cent. in Shetland, and the highest 13·4 per cent. in Elgin.

Of the 31,685 Births, 16,184 were of males, and 15,501 of females, being in the proportion of 104 males for every 100 females. 10,505 Births were registered during April, being at the rate of 350 daily; 10,730 during May, or 346 daily; and 10,450 during June, or 348 daily.

TABLE II.—Percentage of the Illegitimate to the Total Births in the Counties of Scotland, during the Quarter ending 30th June 1894.

DEATHS.

The Deaths of 17,510 persons were registered in Scotland during the quarter, being at the annual rate of 170 for every ten thousand of estimated population, or 1·70 per cent. This rate is 0·20 per cent. below the average for the corresponding quarter of the previous ten years.

The number of Deaths registered in England and Wales during the quarter was 118,647, being at the annual rate of 158 for every ten thousand of the estimated population.

TABLE III.—Number of Births, Deaths, and Marriages in Scotland and their Proportion to the Population, estimated to the middle of each year, during each Quarter of the Years 1883 to 1893 inclusive.

In the Principal Town Districts, the Death-rate for every ten thousand persons was 186; in the Large Town and Small Town Districts, 166; in the Insular-Rural Districts, 156; and in the Mainland-Rural Districts, 151.

In Perth, the Death-rate for every ten thousand persons was 167; in Edinburgh, 171; in Paisley, 174; in Greenock, 184; in Leith, 186; in Aberdeen, 187; in Dundee, 191; and in Glasgow, 199.

Of the 17,510 Deaths, 8678 were of males, and 8832 of females. 5938 Deaths were registered during April, or 198 daily; 5942 during May, or 192 daily; and 5630 during June, or 188 daily.

MARRIAGES.

7139 Marriages were registered in Scotland during the quarter, being at the annual rate of 69 for every ten thousand of estimated population, or 0·69 per cent. This rate is 0·03 per cent. below the average for the quarter during the ten previous years.

Marriages occurred in the Principal Town Districts at the rate of 85 for every ten thousand persons; in the Large Town Districts, the rate was 66; in the Small Town Districts, 62; in the Mainland-Rural Districts, 58; and in the Insular Rural Districts, 20.

In Dundee, the Marriage-rate was 65 for every ten thousand inhabitants; in Paisley, 69; in Greenock, 72; in Glasgow, 83; in Leith, 84; in Aberdeen, 88; in Edinburgh, 90; and in Perth, 106.

2129 Marriages were registered during April, or 71 daily; 878 during May, or 28 daily; and 4132 during June, or 138 daily.

INCREASE OF POPULATION AND EMIGRATION.

The number of Births for the quarter being 31,685, and of Deaths, 17,510, the natural increase of the population, not allowing for changes caused by emigration or immigration, was 14,175. Of the number of immigrants no reliable estimate can be formed; but in regard to emigrants it is gathered from the Returns furnished by the Board of Trade that the number of these amounted to 64,209 during the quarter, of whom 24,785 were English, 3646 Scottish, 16,775 Irish, and 18,414 Foreigners, and 589 whose nationality was not distinguished, but of whom 34 may be assumed to be Scottish. If then 3646 + 34, the number of Scottish emigrants be deducted from the number representing the excess of Births over Deaths, 10,495 remains as the probable increase of the population for the quarter.

TABLE IV.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight of the Principal Towns of Scotland, during the Quarter ending 30th June 1894.

DISEASES IN THE ABOVE PRINCIPAL TOWNS.

About 36 per cent. of the population of Scotland, being resident in these towns, it may be assumed that diseases which are prevalent in them will also be found to a corresponding extent throughout the country.

The total number of deaths in April was 2405, in May 2409, and in June 2165 ; and of these 100 in April, 92 in May, and 109 in June were from causes which were unspecified, or ill-defined.

Miasmatic Diseases caused 256 deaths in April, or 2·10 per thousand of estimated population ; 262 in May, or 2·08 per thousand ; and 224 in June, or 1·83 per thousand.

Nine deaths in April, 9 in May, and 25 in June, were attributed to Small-Pox, of which 27 occurred in Leith, 10 in Edinburgh, 4 in Glasgow, and one each in Dundee and Aberdeen.

Measles caused 15 deaths in April, or 0·12 per thousand of estimated population ; 14 in May, or 0·11 per thousand ; and 30 in June, or 0·25 per thousand. Scarlet Fever caused 19 deaths in April, or 0·16 per thousand of estimated population ; 28 in May, or 0·22 per thousand ; and 29 in June, or 0·24 per thousand. To Hooping-Cough were ascribed 131 deaths in April, or 1·07 per thousand of the estimated population ; 145 in May, or 1·15 per thousand ; and 87 in June, or 0·71 per thousand. From Diphtheria there resulted 37 deaths in April, or 0·30 per thousand ; 33 in May, or 0·26 per thousand ; and 29 in June, or 0·24 per thousand. Fevers caused 29 deaths in April, or 0·24 per thousand ; 28 in May, or 0·22 per thousand ; and 17 in June, or 0·14 per thousand.

To Diarrhoea and Dysentery were attributed 23 deaths in April, or 0·19 per thousand of estimated population ; 29 in May, or 0·23 per thousand ; and 33 in June, or 0·27 per thousand.

Venereal Diseases were the cause of 20 deaths in April, of 9 in May, and of 11 in June.

Intemperance caused 5 deaths in April, 10 in May, and 5 in June.

From Constitutional Diseases there resulted 483 deaths in April, 560 in May, and 467 in June ; and of these, 63 in April, 83 in May, and 77 in June were from Cancer ; and 279, or 2·29 per thousand of estimated population, in April ; 331, or 2·63 per thousand in May ; and 259, or 2·13 per thousand in June, from Phthisis.

Developmental Diseases caused 160 deaths in April, 171 in May, and 141 in June.

To Diseases of the Nervous System were ascribed 301 deaths during April, 292 during May, and 243 during June.

Diseases of the Respiratory System caused 462 deaths in April, 419 in May, and 385 in June ; and of these 12 in April, 7 in May, and 10 in June, were from Croup ; 204 in April, 197 in May, and 159 in June, from Bronchitis ; and 174 in April, 179 in May, and 193 in June, from Pneumonia.

Diseases of the Digestive System caused 170 deaths in April, 123 in May, and 159 in June.

Diseases of the Urinary System caused 55 deaths in April, 57 in May, and 62 in June.

Parturition, or conditions in connection therewith, including Puerperal Fever, caused 15 deaths in April, 17 in May, and 19 in June.

From Violent Causes there resulted 77 deaths in April, 90 in May, and 102 in June.

WEATHER.

The following remarks on the weather of the quarter are extracted from the Meteorological Returns which appear in the Registrar-General's Monthly Reports :—

April was unusually warm, with a diurnal range nearly the average, with a mean barometric pressure slightly under and a monthly range considerably under the mean, with an unusual prevalence of E. and S.E. winds.

May was remarkable for a very low mean temperature, an unusual prevalence of northerly winds blowing with a force also unusual, and a large rainfall, more than usually heavy at eastern stations.

June was characterised by a temperature under the average, by a very irregular distribution of the rainfall, falling on three days more than usual for this month, and by a distribution of pressure above the average, the excess being greater at western than at eastern stations, and this excess accompanied with an excess of east winds.

The mean height of the barometric column, reduced to sea-level and 32° Fahr., was 29·873 inches in April, 29·943 in May, and 29·964 in June. The mean temperature for the quarter was 48°·6, being 0°·4 under the average mean temperature of the quarter during the previous ten years. The mean temperature during April was 47°·1, during May 45°·2, and during June 53°·5. The absolute highest temperature was 71°·0 during April, 72°·0 during May, and 85°·6 during June; the absolute lowest being 24°·0 during April, 21°·0 during May, and 29°·0 during June. Rain fell on 13 days in April, on 17 in May, and on 13 in June; the mean depth being 1·43 inch in April, 3·46 inches in May, and 2·50 inches in June. Winds with an easterly direction blew on 16 days in April, on 11 days in May, and on 11 days in June. Winds with a westerly point blew on 6 days in April, on 11 days in May, and on 12 days in June. Northerly winds blew on 5 days in April, on 14 days in May, and on 8 days in June. Southerly winds blew on 13 days in April, on 7 days in May, and on 9 days in June.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING TABLES
BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
14	Deerness	Part of St Andrews.
15	Eday and Pharay	Part of Stronsay and Eday.
22	North Ronaldshay	Part of Cross and Burness.
26	Sanday	Lady, and part of Cross and Burness.
37b	Keiss	Parts of Canisbay and Wick.
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross and part of Gairloch.
59b	Carnoch	Parts of Contin and Urray.
86b	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs and part of Uig.
92b	Cannich	Parts of Kilmorack and Kiltarlity & Convinth.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
135	Elgin	Elgin, and parts of New Spynie, and St Andrews-Lhanbryde.
152	Enzie	Parts of Bellie and Rathven.
155b	Glenrinnas	Parts of Aberlour and Mortlach.
167	Seafeld	Parts of Cullen and Rathven.
171b	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210b	Kinninmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone and part of Glenmuick, Tullich and Glengairn,
222b	Millbrea	Parts of Fyvie and Monquhitter.
227b	New Pitsligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
237b	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249b	Ythan Wells	Parts of Auchterless and Fergie.
272	Arbroath	Arbroath, and part of St Vigean.
282	Dundee	Dundee, and part of Liff, Benzie and Invergowrie,
294b	Kilry	Parts of Glenisla and Lintrathen.
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
328b	Ardoch	Parts of Blackford, Dunblane, and Muthill.
330	Auchtergaven	Parts of Auchtergaven and Monzie.
331	Balquhidder	Balquhidder, and part of Comrie.
337	Caputh	Parts of Caputh, Clunie, and Dunkeld & Dowally.
339	Clunie	Parts of Caputh and Clunie.
344	Dowally	Part of Dunkeld & Dowally.
349	Dunkeld	Part of Dunkeld & Dowally.
355b	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Little Dunkeld, Methven, and Monzie.
379	Meigle	Meigle and part of Coupar-Angus.
386b	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and parts of Kinnoil and Seone.
393b	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton
394b	Strathmillan	Part of Killin.
394c	Tenantry	Parts of Blair-Athol and Moulin.
402	Anstruther-Easter	Anstruther-Easter and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino and part of Crail.
442	Kirkcaldy and Abbotshall	Kirkcaldy, Abbotshall, and part of Kinghorn.
481b	Grangemouth	Parts of Bothkennar, Falkirk, and Polmont.
490	Stirling	Stirling, and part of St Ninians.
496	Dumbarton	Dumbarton and part of Cardross.
506	Ballachulish, etc.	Part of Kilmallie.
509	Cumlodden and Minard	Parts of Glassary and Glenaray.
513	Inveraray	Inveraray and part of Glenaray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
525	Lismore	Lismore and Appin, and part of Kilmallie.
526	Lochgilthead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardchattan and Muckairn, and Glenorchy and Inishail.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow)	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelve	Part of Pennygown and Torosay.
547	Portnahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
556	Lochranza	Parts of Kilbride and Kilmory.
557	North Bute	North Bute, and part of Rothesay.
572	Nellston	(1) Part of Nellston; (2) Remainder of Nellston, and part of Abbey.
573	Paisley	Paisley, and parts of Abbey and Renfrew.
574	Port-Glasgow	Port-Glasgow and part of Greenock.
576	Ardrossan	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
578	Ayr	Ayr, Newton-upon-Ayr, and part of St Quivox.
584b	Crosshill	Parts of Kirkmichael, Kirkoswald, and Maybole.
595	Irvine	Irvine, and part of Dundonald.
610b	Patna	Parts of Dalnellington, Dalrymple, Kirkmichael, and Straiton.
626b	Calderhead	Parts of Cambusnethan and Shotts.
639	Dalziel	Dalziel and part of Hamilton.
644	Glasgow	City of Glasgow, Gorbals and parts of Barony, and Govan.
652	Old Monkland	Old Monkland, and part of New Monkland.
670	Queensferry	Queensferry, and part of Dalmeny.
684	Duddingston	Parts of Duddingston and South Leith.

CONSTITUTION OF THE DISTRICTS—*continued*.

No.	Districts.	Component Parts (Parishes).
685	Edinburgh	City of Edinburgh, Canongate, and parts of St Cuthberts, Duddingston, Liberton, North Leith and South Leith.
692	Leith	(1) Parts of Cramond, North Leith, and St Cuthberts; (2) Parts of North Leith, St Cuthberts, and South Leith.
693	Liberton	Parts of Liberton and Inveresk.
698 <i>b</i>	Stobhill	Parts of Borthwick, Cockpen, and Newbattle.
774 <i>a</i>	Caddonfoot	Parts of Galashiels, Innerleithen, Selkirk, Stow, and Yarrow.
787 <i>b</i>	Edgerston	Parts of Jedburgh, and Southdean.
794	Kirktown	Kirktown and part of Cavers.
809	Teviothead	Parts of Cavers and Hawick.
813 <i>b</i>	Brydekirk	Parts of Annan, Cummertrees, and Hoddam.
830	Holywood	Holywood and part of Terregles.
853 <i>b</i>	Wanlockhead	Part of Sanquhar.
857 <i>b</i>	Bargrennan	Parts of Minnigaff (Kirkcudbright) and Penninghame (Wigtown).
862	Corsockbridge	Parts of Balmaclellan, Kirkpatrick-Durham, and Parton.
864	Dalbeattie	Part of Urr.
899	Stranraer	Stranraer and parts of Inch, and Leswalt.

METEOROLOGICAL REPORT

FOR THE MONTHS OF

APRIL, MAY, JUNE.

1894.

NOTES ON THE NUMERICAL RETURNS OF SCOTTISH METEOROLOGY
FOR THE QUARTER ENDING 30TH JUNE 1894.

By Dr BUCHAN, under the Direction of the Council of the Scottish Meteorological Society.

THESE returns are founded on the observations made, morning and evening, at 67 of the Stations of the Scottish Meteorological Society, and have been prepared from the Observers' separate schedules.

From the individual results for each station, the following collective results have been obtained, assuming them to have been equally well observed, and to represent the whole country :—

COLLECTED RETURNS FOR ALL THE ACCEPTED STATIONS OF THE SCOTTISH METEOROLOGICAL SOCIETY, HAVING A MEAN LATITUDE = $56^{\circ} 32' N.$; MEAN LONGITUDE = $3^{\circ} 44' W.$; AND MEAN ELEVATION = 283 Feet.

And when these results are compared with the average of 1856-93, during the same months, they show the following characteristics and differences :—

APRIL 1894—

Mean Barometric Pressure, 29.873 inches ; less than the average of 1856-93 by 0.122 inch.

Monthly Range, 1.021 inch ; less by 0.193 inch.

Mean Temperature, $47^{\circ}.1$; greater by $3^{\circ}.0$.

Mean Daily Range, $15^{\circ}.1$; greater by $0^{\circ}.7$.

Mean of Black Bulb in Sun, $82^{\circ}.6$; greater by $8^{\circ}.2$.

Do at Night, $34^{\circ}.4$; greater by $2^{\circ}.4$.

Mean Humidity, 83 ; greater by 1.
 Rain, Number of Days, 13 ; being the average.
 Rain, Depth in Inches, 1·43 ; less by 0·72 inch.
 Wind, Pressure on Square Foot, 1·56 lb. ; less by 0·21 lb.
 Wind, Direction of, E. to W. as 12 to 4, and N. to S. as 4 to 8 ; in place of E. to W. as 8 to 8, and N. to S. as 7 to 6.
 Hours of Sunshine, 149 hours ; less by 12 hours.
 Mean Amount of Cloud, 5·8 ; less by 0·4.

MAY 1894—

Mean Barometric Pressure, 29·943 inches ; greater than the average of 1856–93 by 0·012 inch.
 Monthly Range, 1·052 inch ; less by 0·021 inch.
 Mean Temperature, 45°·2 ; less by 3°·8.
 Mean Daily Range, 16°·7 ; greater by 1°·3.
 Mean of Black Bulb in Sun ; 85°·3 ; greater by 2°·8.
 Do. at Night, 35°·1 ; less by 1°·0.
 Mean Humidity, 78 ; less by 2.
 Rain, Number of Days, 17 ; greater by 4 days.
 Rain, Depth in Inches, 3·46 ; greater by 1·17 inch.
 Wind, Pressure on Square Foot, 1·97 lb. ; greater by 0·42 lb.
 Wind, Direction of, E. to W. as 8 to 8, and N. to S. as 10 to 5 ; in place of E. to W. as 8 to 8, and N. to S. as 6 to 7.
 Hours of Sunshine, 174 ; less by 22 hours.
 Mean Amount of Cloud, 6·1 ; less by 0·1.

JUNE 1894—

Mean Barometric Pressure, 29·964 inches ; greater than the average of 1856–93 by 0·028 inch.
 Monthly Range, 0·880 inch ; less by 0·075 inch.
 Mean Temperature, 53°·5 ; less by 1°·3.
 Mean Daily Range, 15°·6 ; less by 0°·2.
 Mean of Black Bulb in Sun, 93°·6 ; greater by 2°·9.
 Do. at Night, 41·8 : being the average.
 Mean Humidity, 78 ; less by 2.
 Rain, Number of Days, 13 ; being the average.
 Rain, Depth in Inches, 2·50 ; greater by 0·01 inch.
 Wind, Pressure on Square Foot, 1·06 lb. ; less by 0·37 lb.
 Wind, Direction of, E. to W. as 8 to 9, and N. to S. as 5 to 6 ; in place of E. to W. as 6 to 9, and N. to S. as 5 to 7.
 Hours of Sunshine, 168 hours ; less by 48.
 Mean Amount of Cloud, 6·3 ; greater by 0·2.

Hence APRIL 1894 has been characterised by a barometric pressure and monthly range under the average ; a mean temperature greatly in excess in all parts of the country ; and a rainfall decidedly under the average.

The distribution of barometric pressure was very anomalous, being considerably higher in the north than in the south, and very much higher in the east than in the west. To the north of a line drawn from the Isle of May to Cape Wrath, pressure was above the average, but below to the south of it. The deficiency at Barahead was 0·068 inch, and in Wigtownshire 0·062 inch ; and, on the other hand, the excess above the average was 0·067 at North Unst. The inevitable result of this distribution of pressure was that easterly and south easterly winds prevailed six days more than the average of April, and from this resulted the remarkable temperatures and rainfall of the month.

Mean temperature was 3°·0 above the mean. The days were 3°·3, and the nights 2°·6, and, in accordance with this, the Black Bulb in Sun was 8°·2 above the mean. Owing to the great excess of easterly winds, the temperature was only about 2°·0 in excess at strictly Eastern Stations, but inland and over the west the excess was a little over 3°·0, with singular uniformity. The absolute highest temperature was 71°·0 at Drumlairig, on the 19th ; and the lowest 24°·0 at Stobo, on the 2nd.

The mean rainfall was 1·43 inch, or 34 per cent. under the average. The absolute highest rainfall was 2·73 inches at Craighannoch, Ballachulish, and the lowest 0·07 inch at Lairg. The distribution of the rainfall over the country was very irregular. Thus, at several Stations from Ayrshire, east-north-eastwards, it was above the average, the excess at Paisley being 31 per cent., and at Haddington 3 per cent. To the south of the

Grampian range the deficiency was generally about one-third less than the average, whereas to the north the deficiency varied from 50 to 90 per cent. The prevailing south-easterly winds explain this distribution of the rainfall.

Thunderstorms are reported from 34 Stations, giving an average of 2 to each Station, being respectively 21 and 1 above the averages. The above number, 34, is the largest number hitherto recorded by the Society. Auroras were reported from 4 Stations, viz., Fort-William, Boyndie, Leith, and Eyemouth.

MAY 1894 was characterised by a barometric pressure and monthly range near the average; a mean temperature very greatly under the average; a rather low humidity; and a large rainfall, occurring with a frequency considerably above the average.

Over the whole of the Western Stations barometric pressure was above the average of the month, but below it at Eastern Stations. From this distribution of pressure, N.W., N., and N.E. winds prevailed five days more than the average, and this increased prevalence of northerly winds was accompanied with a phenomenally low temperature, and a general excess of rainfall.

Mean temperature was $45^{\circ}2$, being $3^{\circ}8$ under the average. No lower mean temperature has yet been observed for May, but the same low temperature occurred in the Mays of 1869 and 1885. The depression of temperature was greater at Southern and Eastern Stations than it was in the West and North. At North Unst temperature was only $0^{\circ}5$ under the average, but at Wolfelee the deficiency was $4^{\circ}2$. From the 20th to the 24th temperature fell at many places below freezing, and great damage was done to the growing crops. The absolute highest temperature was $72^{\circ}0$ at Smeaton on the 25th, and the lowest $21^{\circ}0$ at Stobo on the 22nd.

The mean rainfall was 3.46 inches, or 50 per cent. above the average. Its distribution over the country was very irregular. In the counties of Perth and Dumbarton, parts of Argyll and Inverness, and the southern half of the Outer Hebrides, it was a little under the average. In all other parts of the country it was above the average, the excess being unusually great in the north-east, from Wick to Fraserburgh, being 138 per cent. at Watten, Boyndie, and Logie Coldstone. At Eastern Stations to the south it was also great. Over the whole of the western half of Scotland the rainfall was very much less than at Eastern Stations. The absolute highest rainfall was 6.20 inches at Glencarron, 5.20 inches at Gordon Castle, 5.15 inches at Ladylaw, and 5.04 inches at Lednathie; and the lowest, 1.36 inch at Lairg. The mean number of days of rain was 17, which has previously been only twice exceeded, viz., in 1885, and 1872, when the number was 20 and 19 days respectively.

The amount of Cloud was the average, but the sunshine was 22 hours less than the mean.

Thunderstorms were recorded at 28 Stations, giving a mean of 2 for each Station, the average number of Stations for the month being 18. Auroras were observed at Edinburgh and Logie Coldstone.

JUNE 1894 was marked by a barometric pressure a little above the mean, and a monthly range considerably under it; by a mean temperature under the average; and a rainfall the average, both as respects the amount and the frequency with which it fell.

The slight excess of barometric pressure was pretty evenly distributed over the country, and the mean direction of the wind was about the normal, but its strength was a good deal less than the average.

The mean temperature was $53^{\circ}5$, or $1^{\circ}3$ under the average, but the distribution of the temperature was markedly different in different parts of the country. To the west of a line drawn from Nosshead to Skerryvore, temperature was above the average, the excess in the south of the Outer Hebrides being $2^{\circ}0$; but to the east of this line it was under the average, the greatest deficiency being $2^{\circ}0$ at the extreme South-Eastern Stations, thus showing an unusually great difference between the temperature in Roxburghshire on the one hand, and the Hebrides on the other. For the first three weeks temperature was markedly low, but during the last week it was high, particularly in the west. The absolute highest temperature was $85^{\circ}6$ at Cargen, on the 30th; and the lowest, $29^{\circ}0$ at Stobo, on the 1st.

The mean rainfall was 2.50 inches, being the average. The amount was above the average to the east of a line drawn through Fettercairn, Paisley, Drumlanrig, and Ardewell; and also at several Stations in the west of Argyll. Elsewhere it was under the average. The departures from the averages were in all cases relatively small. The higher rainfalls were 4.41 inches at Roshven, 4.38 inches at Glencarron, 4.28 inches at Craighannoch, and 4.21 inches at Cally; and the lowest 0.76 inch at Smeaton.

Thunderstorms were reported at 28 Stations.

REGISTRARS' NOTES.

IN compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

INSTRUCTIONS TO REGISTRARS.

“If at any time the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, &c., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance.”

The Figures refer to the Numbers of the Districts in the preceding Tables.

I. NORTHERN DIVISION.

1. SHETLAND.

11. UNST.—Of the four deaths registered, one was caused by Scarlatina.

2. ORKNEY.

26. SANDAY.—The number of deaths exceeds that of births,—the former being principally of old people. Hooping - Cough appeared in certain localities, but none of the cases resulted fatally.

3. CAITHNESS.

42. WATTEN.—Two deaths were caused by Typhus Fever, which was brought from a neighbouring parish; precautions being taken however, the disease did not spread farther than the family in which it appeared.

4. SUTHERLAND.

52. KILDONAN.—Scarlatina prevalent during the quarter.

II. NORTH-WESTERN DIVISION.

5. ROSS AND CROMARTY.

Mainland.

58 (1). APPLECROSS.—One of the five deaths was that of a widow aged 100 years.

71a. KINCARDINE.—The ages of the three persons whose deaths were recorded were 76, 84, and 90 years respectively.

6. INVERNESS.

Mainland.

107 (1). URQUHART. — Deaths much above the average. Several cases of Influenza occurred, of which one was fatal.

Insular.

111 (1). NORTH HARRIS. — Typhus Fever prevalent, four families being affected, but no fatal results have yet occurred.

114 (1). PORTREE. — Of the 18 deaths registered, 13 were of persons whose respective ages ranged from 62 to 89 years.

119. STRATH. — Two cases of accidental drowning were registered during April.

III. NORTH-EASTERN DIVISION.

9. BANFF.

148. BOTRIPHNE. — The only death registered was that of a woman aged almost 96 years.

10. ABERDEEN.

172. — AUCHINDOIR AND KEARN. — Of the six deaths recorded, one was caused by Influenza, and another by the kick of a horse.

173. AUCHTERLESS. — Deaths under the average. The health of the district has been good, but Measles and Hooping-Cough have now broken out.

183 (1). BRAEMAR. — One of the two deaths resulted from Cold and Exposure.

184. CRIMOND. — Deaths above the average, but chiefly of elderly persons. Of the seven registered, 2 were over 80, and one over 90 years.

189. DRUMOAK. — Of the seven deaths registered during the quarter, 4 were of persons aged 70, 72, 85 and 90 years respectively.

210a (2). NEW BYTH. — Six of the nine deaths registered were of persons over 70 years of age.

231 (1). EAST PETERCULTER. — Of the four deaths registered, two were of persons aged respectively 74 and 84 years; the other two were of infants.

243. TARVES. — Marriages above the average, and deaths under. Two of the three persons whose deaths were registered were each aged 74 years.

IV. EAST-MIDLAND DIVISION.

12. FORFAR.

281. DUN. — The public school was closed for four weeks owing to an epidemic of Measles.

284. EASSIE AND NEVAY. — Measles prevalent, but no deaths therefrom. Deaths above the average.

288. FORFAR. — Measles prevalent. Deaths above the average.

296. KINNELL. — Deaths above the average.

Of the six persons whose deaths were registered, the average age of five amounted to 74 years. The sixth was an infant.

305. LUNAN. — The only death recorded resulted from suicidal hanging.

307 (2). STRATHMARTINE. — Measles prevalent, but of a mild type.

321. TANNADICE. — An epidemic of Measles prevailed during the latter part of May and the whole of June, and in consequence the public school was closed for a fortnight. One death was caused by Inflammation of the Lungs resulting from an attack of Measles.

13. PERTH.

328a. ALYTH. — Of the 12 persons whose deaths were recorded, the respective ages of eight ranged from 73 to 92 years.

334. BLAIR-ATHOL. — Scarlatina prevalent and caused one death.

385. MUCKART. — The only death registered was that of a female aged 88 years.

387. PERTH. — Three males and three females were aged 82 years and upwards, the eldest—the widow of a farmer was aged 93 years.

394b. STRATHFILLAN. — The deaths, with two exceptions, are these of Navvies employed in the construction of the West Highland Railway, who have been killed accidentally, or who have died from exposure.

14. FIFE.

405. AUCHTERDERRAN. — Of the 7 deaths registered during June, three were due to accident.

409. BALMERINO. — One of the two deaths registered in May was of a female aged 102 years.

410. BEATH. — Three of the deaths in May resulted from a pit sinking accident.

411. BURNTISLAND. — The stoppage of the Burntisland Oil Company's Works, and the consequent exodus from the district of several hundred workmen, have told adversely on the returns—the Births being down from 109 in the first half of 1893 to 78 in 1894, Marriages 13 to 11, and Deaths 63 to 34 respectively.

417. CRAIL. — The death recorded in June was that of a widow in her 102nd year.

420. CUPAR. — Of the 34 deaths registered, eight occurred in the Fife and Kinross Asylum, one was of a man burned to death, and another of a man killed on the railway.

427. ELIE. — The seven deaths registered were of females aged respectively 73, 74, 79, 80, 80, 83 and 87 years.

458b. TULLIALLAN. — One death was caused by Diphtheria.

15. KINROSS.

460. CLEISH. — With the exception of a number of cases of Hooping-Cough, and all of a very mild type, the parish is particularly healthy.

V. WEST-MIDLAND DIVISION.

17. STIRLING.

469. AIRTH.—Three of the five deaths recorded were caused by accidental drowning.

19. ARGYLL.

Mainland.

527 (2). KILMORICH.—One death was caused by Typhoid Fever. This is the fourth death from that cause in the parish this year, and all occurred in the same family.

529. MUCKAIRN.—One of the three deaths was caused by a railway accident.

Insular.

542. KILFINICHEN AND KILVICKEON.—Death-rate above the average. Of the 14 deaths registered, five were of children under five years of age, three of whom died from Hooping-Cough (which is still prevalent), and two from Membranous Croup.

20. BUTE.

555. KINGARTH.—Deaths above the average, but 2 were of strangers. Of the 9 deaths recorded, 7 were of persons whose respective ages averaged 72 years. The cold weather of the last two months probably accounts for the high rate among the aged.

VI. SOUTH-WESTERN DIVISION.

22. AYR.

577 (1). AUCHINLECK.—An epidemic of Measles occurred, and three of the deaths resulted therefrom. The public school was closed for a time.

397. KILMARNOCK.—The number of deaths in June is the lowest in that month since 1871.

602. LARGS.—Parish very healthy.

23. LANARK.

6266. CALDERHEAD.—Deaths in April and May above the average, on account of the prevalence of Measles and Hooping-Cough.

639. DALZIEL.—Hooping-Cough was largely prevalent during May, and, along with other complications, proved fatal in 24 cases. Although the severity of the disease is very much mitigated, it has not yet entirely disappeared.

647. HAMILTON.—One death resulted from Scarlet Fever, one from Typhoid Fever, and one from Rheumatic Fever, and four from Hooping-Cough. Eight cases of fatal accident also occurred.

VII. SOUTH-EASTERN DIVISION.

24. LINLITHGOW.

665. DALMENY.—Health of the district remarkably good. One death was that of a suicide; the other of an infant 15 days old. Hooping-Cough has appeared among the children, but of a mild type.

695. NEWBATTLE.—Three cases of Diphtheria occurred, one of which proved fatal.

26. HADDINGTON.

713. NORTH BERWICK.—Of the five deaths for the quarter, two were of strangers.

716. PENCAITLAND.—Hooping-Cough prevalent. One death from Typhoid Fever, of which there have been no fewer than seven cases in one family.

27. BERWICK.

727. AYTON.—Of the 10 deaths registered, four were of persons whose respective ages ranged from 77 to 87 years.

730. CHIRNSIDE.—Of the five deaths registered, three were of persons aged respectively 73, 74, and 77 years.

732 (1). COLDINGHAM.—Two of the six deaths recorded were of females aged 80 and 91 years respectively. Three deaths, of children, were caused by Diphtheria.

752. MORDINGTON.—Of the two deaths registered, one resulted from Pneumonia, and the other from accidental drowning whilst bathing.

28. PEEBLES.

767. NEWLANDS.—A severe epidemic of Measles, and the only death registered is from that cause.

771. TRAQUAIR.—The only death registered was caused by drowning.

VIII. SOUTHERN DIVISION.

30. ROXBURGH.

797. MAKERSTON.—Of the two persons whose deaths were recorded, one was aged over 91 years.

799 (2). LANGSHAW.—The only death recorded is that of a female who had reached the age of 80 years.

31. DUMFRIES.

845. PENFONT.—This is the first quarter during the last 27 years, in which no deaths have been registered.

849. TINWALD.—The only death recorded during the quarter was that of a female who had entered her 99th year.

32. KIRKCUDBRIGHT.

857b. BARGRENNAN.—Of the three deaths registered, one was that of a girl whose death resulted from burning.

885. DALRY.—Of the four deaths, two were of children under five years of age, and the remaining two of persons aged respectively 85 and 88 years.

876. MINNIGAFF.—Deaths much above the

average. Of the 11 registered, 8 were of persons between the ages of 60 and 85 years.

883. TWYNHOLM.—Two of the deaths in May were of boys who were accidentally drowned.

33. WIGTOWN.

886. INCH.—Several cases of Scarlatina occurred, but were of a mild type, and none of the cases resulted fatally.

INDEX TO THE DISTRICTS

*The actual number of Districts is 1056—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 5 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place compound names in the order in which they are pronounced.

90 WEST NILE STREET, GLASGOW.

1894.

REPORT.

DURING the quarter ending 30th September 1894, there were registered in Scotland 30,015 Births, 15,001 Deaths, and 6180 Marriages. Table III. shows the Births and Deaths to be below, and the Marriages above, the average for the corresponding quarter of the previous ten years.

TABLE I.—Births, Deaths, and Marriages in Scotland, its Groups of Districts and Divisions during the Quarter ending 30th September 1894, with their Proportion to the Population, also the Illegitimate Births, and their Proportion to the Total Births.

BIRTHS.

30,015 Births were registered during the quarter, being at the annual rate of 289 per ten thousand of estimated population, or 2·89 per cent.

Births occurred in the Large Town Districts at the rate of 314 for every ten thousand of the estimated population ; in the Principal Town Districts the rate was 299 ; in the Small Town Districts, 296 ; in the Mainland-Rural Districts, 257 ; and in the Insular-Rural Districts, 233.

The annual Birth-rate for every ten thousand persons in Perth was 228 ; in Edinburgh, 244 ; in Paisley, 297 ; in Leith, 304 ; in Dundee, and in Aberdeen, 307 ; in Glasgow, 308 ; and in Greenock, 326.

Of the 30,015 Births, 2232, or 7·4 per cent., were illegitimate. In the Insular-Rural Districts, 5·2 per cent. of the Births were illegitimate ; in the Large Town Districts, 5·9 ; in the Principal, and Small Town Districts, 7·2 ; and in the Mainland-Rural Districts, 9·5 per cent.

A comparative statement of the rate of illegitimacy in the Divisions and Counties of Scotland will be found in Tables I. and II. Table I. shows, as is invariably the case, that in the North-Eastern, and Southern Divisions, the highest rate of illegitimacy occurred, being 13·5 per cent. of the Births in the former, and 12·3 per cent. in the latter. It will be seen from Table II. that in eleven of the Counties the rate of illegitimacy was over 10 per cent., being the same number and almost the same counties, which exceeded that rate last quarter. The lowest rate occurred in Shetland, viz., 1·8 per cent., and the highest in Nairn, viz., 19·6 per cent.

Of the 30,015 Births, 15,583 were of males, and 14,432 of females, being in the proportion of 108 males for every 100 females. 10,557 Births were registered during July, being at the rate of 341 daily ; 10,307 during August, or 332 daily ; and 9151 during September, or 305 daily.

TABLE II.—Percentage of the Illegitimate to the Total Births in the Counties of Scotland, during the Quarter ending 30th September 1894.

DEATHS.

The Deaths of 15,001 persons were registered in Scotland during the quarter, being at the annual rate of 144 for every ten thousand of the estimated population, or 1·44 per cent. This is 0·20 per cent. below the average rate for the corresponding quarter of the ten preceding years.

The number of Deaths registered in England and Wales during the quarter was 107,503, being at the annual rate of 143 for every ten thousand of the estimated population.

TABLE III.—Number of Births, Deaths, and Marriages in Scotland and their Proportion to the Population, estimated to the middle of each year, during each Quarter of the Years 1884 to 1894 inclusive.

The Death-rate for every ten thousand persons in the Principal Town Districts was 152; in the Large Town Districts, 148; in the Small Town Districts, 145; in the Mainland-Rural Districts, 130; and in the Insular-Rural Districts, 128.

In Leith, the Death-rate for every ten thousand persons was 131; in Perth, 138; in Edinburgh, and in Aberdeen, 146; in Paisley, 153; in Dundee, 157; in Glasgow, 159; and in Greenock, 179.

Of the 15,001 Deaths registered, 7370 were of males, and 7631 of females. 5307 Deaths were registered during July, being at the rate of 171 daily; 5098 during August, or 164 daily; and 4596 during September, or 153 daily.

MARRIAGES.

6480 Marriages were registered in Scotland during the quarter, being at the annual rate of 62 for every ten thousand of the estimated population, or 0·62 per cent. This is 0·02 per cent. above the average for the quarter of the ten previous years.

In the Principal Town Districts Marriages occurred at the rate of 84 for every ten thousand of the estimated population; in the Large Town Districts, the rate was 69; in the Small Town Districts, 52; in the Mainland-Rural Districts, 37; and in the Insular-Rural Districts, 16.

The Marriage-rate in Dundee for every ten thousand of the estimated population was 73; in Greenock, 81; in Paisley, 82; in Leith, and in Perth, 84; in Glasgow, 88; in Edinburgh, 90; and in Aberdeen, 96.

3123 Marriages were registered during July, or 101 daily; 1603 during August, or 52 daily; and 1754 during September, or 58 daily.

INCREASE OF POPULATION AND EMIGRATION.

The number of Births being 30,015, and of Deaths, 15,001, the natural increase of the population, not allowing for changes caused by emigration or immigration, was 15,014. No reliable estimate can be formed of the number of immigrants; but from the Returns furnished by the Board of Trade it appears that the number of emigrants for the quarter was 79,947, of whom 34,092 were English, 5508 Scottish, 14,451 Irish, and 24,984 Foreigners, and 912 whose nationality was not distinguished. Of these last, however, the proportion of Scottish may be assumed to be 64. If then $5508 \div 64$, the number of Scottish emigrants, be deducted from the number representing the excess of Births over Deaths, there remains 9442 which may be assumed to be a fair estimate of the increase of population for the quarter.

TABLE IV.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight of the Principal Towns of Scotland, during the Quarter ending 30th September 1894.

DISEASES IN THE ABOVE PRINCIPAL TOWNS.

About 36 per cent. of the population of Scotland, being resident in these towns, it may be held that diseases prevailing in them will also be found to a corresponding extent throughout the country.

The total number of deaths in July was 2021, in August 1939, and in September 1784; and of these 93 in July, 81 in August, and 71 in September, were either unspecified, or ill-defined.

Miasmatic Diseases caused 155 deaths in July, or 1.23 per thousand of estimated population; 154 in August, or 1.22 per thousand; and 161 in September, or 1.32 per thousand.

To Small-Pox were attributed 11 deaths in July, 2 in August, and 2 in September, and of these 11 occurred in Edinburgh, 3 in Leith, and 1 in Greenock.

Measles caused 43 deaths in July, or 0.34 per thousand of estimated population; 28 in August, or 0.22 per thousand; and 11 in September, or 0.09 per thousand. To Scarlet Fever were ascribed 21 deaths in July, or 0.17 per thousand of estimated population; 15 in August, or 0.12 per thousand; and 29 in September, or 0.24 per thousand. Hooping-Cough caused 30 deaths in July, or 0.24 per thousand; 43 in August, or 0.34; and 40 in September, or 0.33. Diphtheria caused 29 deaths in July, or 0.23 per thousand; 41 in August, or 0.33; and 49 in September, or 0.40. Fevers were the cause of 17 deaths in July, or 0.13 per thousand of estimated population; 20 in August, or 0.16 per thousand; and 27 in September, or 0.22 per thousand.

To Diarrhoea and Dysentery were attributed 47 deaths in July, or 0.37 per thousand of estimated population; 88 in August, or 0.70 per thousand; and 59 in September, or 0.48 per thousand.

Venereal Diseases were the cause of 2 deaths in July, 10 in August, and 8 in September.

Intemperance caused 10 deaths in July, 15 in August, and 4 in September.

To Constitutional Diseases were ascribed 466 deaths in July, 439 in August, and 386 in September; and of these, 91 in July, 99 in August, and 100 in September, were from Cancer; and 250, or 1.99 per thousand of estimated population, in July; 233, or 1.85 per thousand in August; and 175, or 1.44 per thousand in September, were from Phthisis.

Developmental Diseases caused 132 deaths in July, 138 in August, and 151 in September.

During July, 236 deaths were caused by Diseases of the Nervous System; 235 during August; and 207 during September.

Diseases of the Respiratory System caused 270 deaths in July, 234 in August, and 263 in September; and of these, 10 in July, 12 in August, and 19 in September, were from Croup; 120 in July, 90 in August, and 105 in September, from Bronchitis; and 109 in July, 95 in August, and 105 in September, from Pneumonia.

From Diseases of the Digestive System there resulted 167 deaths in July, 153 in August, and 135 in September.

Diseases of the Urinary System caused 69 deaths in July, 57 in August, and 64 in September.

Parturition, or conditions in connection therewith (including Puerperal Fever), caused 17 deaths in July, 13 in August, and 10 in September.

In July, 81 deaths resulted from Violent Causes; in August 83; and in September 66.

WEATHER.

The following remarks on the weather of the quarter are extracted from the Meteorological Returns which appear in the Registrar-General's Monthly Reports :—

July was on the average a month with pressure a little under the average, but range of pressure a good deal above it; temperature above the average range of temperature; humidity and rainfall, the average, three days of rain more than usual, and an excess of E. and S.E. winds.

August was characterised by a large rainfall, distributed over a larger number of days than usual; a mean temperature under the average; a barometric pressure under the average, but with a monthly range considerably above it; and with a marked prevalence of W.N.W., and N. winds.

September as compared with the previous 38 Septembers, showed a higher mean barometric pressure, a lower monthly barometric range, a smaller rainfall, and a much greater predominance of northerly and easterly winds than any recorded during these years.

The mean height of the barometric column, reduced to sea-level and 32° Fahr., was 29·845 inches in July, 29·822 in August, and 30·217 in September. The mean temperature for the quarter was 54°·9, being 0°·1 under the average mean temperature for the quarter during the preceding ten years. The mean temperature during July was 58°·2, during August 55°·4, and during September 51°·2. The absolute highest temperature was 87°·0 in July, 75°·0 in August, and 74°·0 in September; the absolute lowest being 35°·0 in July, 32°·0 in August, and 24°·0 in September. Rain fell on 16 days in July, on 19 in August, and on 8 in September; the mean depth being 3·64 inches in July, 4·78 inches in August, and 0·53 inches in September. Winds with an easterly point blew on 10 days in July, on 6 days in August, and on 10 days in September. Westerly winds blew on 13 days in July, on 18 days in August, and on 9 days in September. Northerly winds blew on 6 days in July, on 11 days in August, and on 13 days in September. Southerly winds blew on 11 days in July, on 9 days in August, and on 4 days in September.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING TABLES
BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
14	Deerness	Part of St Andrews.
15	Eday and Pharay	Part of Stronsay and Eday.
22	North Ronaldshay	Part of Cross and Burness.
26	Sanday	Lady, and part of Cross and Burness.
37b	Keiss	Parts of Canisbay and Wick.
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross and part of Gairloch.
59b	Carnoch	Parts of Contin and Urray.
86b	Carlaway	Parts of Barvas and Uig.
87	Lochs	Lochs and part of Uig.
92b	Cannich	Parts of Kilmorack and Kiltarlity & Convinth.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
135	Elgin	Elgin, and parts of New Spynie, and St Andrews-Lhanbryde.
152	Enzie	Parts of Bellie and Rathven.
155b	Glenrinnies	Parts of Aberlour and Mortlach.
167	Seafeld	Parts of Cullen and Rathven.
171b	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210b	Kinninmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone and part of Glenmuick, Tullich and Glengairn,
222b	Millbren	Parts of Fyvie and Monquhitter.
227b	New Pittligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
237b	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249b	Ythan Wells	Parts of Auchterless and Forgue.
272	Arbroath	Arbroath, and part of St Vigean.
282	Dundee	Dundee, and part of Liff, Benzie and Invergowrie,
294b	Kilry	Parts of Glenisla and Lintrathen.
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
328b	Ardoch	Parts of Blackford, Dunblane, and Muthill.
330	Auchtergaven	Parts of Auchtergaven and Monzie.
331	Balquhider	Balquhider, and part of Comrie.
337	Caputh	Parts of Caputh, Clunie, and Dunkeld & Dowally.
339	Clunie	Parts of Caputh and Clunie.
344	Dowally	Part of Dunkeld & Dowally.
349	Dunkeld	Part of Dunkeld & Dowally.
355b	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Little Dunkeld, Methven, and Monzie.
379	Meikle	Meikle and part of Coupar-Angus.
386b	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and parts of Kinnoull and Scone.
393b	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton
394b	Strathfillan	Part of Killin.
394c	Tenantry	Parts of Blair-Athol and Moulin.
402	Anstruther-Easter	Anstruther-Easter and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino and part of Crail.
442	Kirkcaldy and Abbotshall	Kirkcaldy, Abbotshall, and part of Kinghorn.
481b	Grangemouth	Parts of Bothkennar, Falkirk, and Polmont.
490	Stirling	Stirling, and part of St Ninians.
496	Dumbarton	Dumbarton and part of Cardross.
506	Ballachulish, etc.	Part of Kilmallie.
509	Cumlodden and Minard	Parts of Glassary and Glenaray.
513	Inveraray	Inveraray and part of Glenaray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
525	Lismore	Lismore and Appin, and part of Kilmallie.
526	Lochgilthead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardochattan and Muckairn, and Glenorchy and Inishail.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow)	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochaspelvie	Part of Pennygown and Torosay.
547	Portnahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
556	Lochranza	Parts of Kilbride and Kilmore.
557	North Bute	North Bute, and part of Rothesay.
572	Neilston	(1) Part of Neilston; (2) Remainder of Neilston, and part of Abbey.
573	Paisley	Paisley, and parts of Abbey and Renfrew.
574	Port-Glasgow	Port-Glasgow and part of Greenock.
576	Ardrossan	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
578	Ayr	Ayr, Newton-upon-Ayr, and part of St Quivox.
584b	Crosshill	Parts of Kirkmichael, Kirkoswald, and Maybole.
595	Irvine	Irvine, and part of Dundonald.
610b	Patna	Parts of Dalmellington, Dalrymple, Kirkmichael, and Straiton.
626b	Calderhead	Parts of Cambusnethan and Shotts.
639	Dalziel	Dalziel and part of Hamilton.
644	Glasgow	City of Glasgow, Gorbals and parts of Barony, and Govan.
652	Old Monkland	Old Monkland, and part of New Monkland.
670	Queensferry	Queensferry, and part of Dalmeay.
684	Duddingston	Parts of Duddingston and South Leith.

CONSTITUTION OF THE DISTRICTS—*continued.*

No.	Districts.	Component Parts (Parishes).
685	Edinburgh	City of Edinburgh, Canongate, and parts of St Cuthberts, Duddingston, Liberton, North Leith and South Leith.
692	Leith	(1) Parts of Cramond, North Leith, and St Cuthberts; (2) Parts of North Leith, St Cuthberts, and South Leith.
693	Liberton	Parts of Liberton and Inveresk.
698 <i>b</i>	Stobhill	Parts of Borthwick, Cockpen, and Newbattle.
774 <i>a</i>	Caddonfoot	Parts of Galashiels, Innerleithen, Selkirk, Stow, and Yarrow.
787 <i>b</i>	Edgerston	Parts of Jedburgh, and Southdean.
794	Kirktown	Kirktown and part of Cavers.
809 <i>j</i>	Teviothead	Parts of Cavers and Hawick.
813 <i>b</i>	Brydekirk	Parts of Annan, Cummertrees, and Hoddum.
830	Holywood	Holywood and part of Terregles.
853 <i>b</i>	Wanlockhead	Part of Sanquhar.
857 <i>b</i>	Bargrennan	Parts of Minnigaff (Kirkcudbright) and Penninghame (Wigtown).
862	Corsockbridge	Parts of Balmaclellan, Kirkpatrick-Durham, and Parton.
864	Dalbeattie	Part of Urr.
899	Stranraer	Stranraer and parts of Inch, and Leswalt

METEOROLOGICAL REPORT

FOR THE MONTHS OF

APRIL, MAY, JUNE.

1894.

NOTES ON THE NUMERICAL RETURNS OF SCOTTISH METEOROLOGY
FOR THE QUARTER ENDING 30TH SEPTEMBER 1894.

By Dr BUCHAN, under the Direction of the Council of the Scottish Meteorological Society.

THESE returns are founded on the observations made, morning and evening, at 67 of the Stations of the Scottish Meteorological Society, and have been prepared from the Observers' separate schedules.

From the individual results for each station, the following collective results have been obtained, assuming them to have been equally well observed, and to represent the whole country :—

COLLECTED RETURNS FOR ALL THE ACCEPTED STATIONS OF THE SCOTTISH METEOROLOGICAL SOCIETY, HAVING A MEAN LATITUDE = 56° 32 N.; MEAN LONGITUDE = 3° 44' W.; AND MEAN ELEVATION = 283 Feet.

When these results are compared with the average of 1856-93, during the same months, they show the following characteristics and differences :—

JULY 1894—

Mean Barometric Pressure, 29·845 inches ; less than the average of 1856-93 by 0·030 inch.

Monthly Range, 1·125 inch ; greater by 0·217 inch.

Mean Temperature, 58°·2 ; greater by 1°·1.

Mean Daily Range, 15°·5 ; greater by 1°·1.

Mean of Black Bulb in Sun, 97°·5 ; greater by 5°·8.

Do. at Night, 46°·6 ; greater by 1°·9.

Mean Humidity, 82 ; being the average.
 Rain, Number of Days, 16 ; greater by 1.
 Rain, Depth in Inches, 3·64 ; greater by 0·51 inch.
 Wind, Pressure on Square Foot, 1·03 lb. ; less by 0·39 lb.
 Wind, Direction of, E. to W. as 8 to 10, and N. to S. as 4 to 7 ; in place of E. to W. as 5 to 11, and N. to S. as 5 to 7.
 Hours of Sunshine, 175 ; less by 27.
 Mean Amount of Cloud, 6·7 ; greater by 0·1.

AUGUST 1894—

Mean Barometric Pressure, 29·822 inches ; less than the average of 1856–93 by 0·029 inch.
 Monthly Range, 1·085 inch ; greater by 0·100 inch.
 Mean Temperature, 55°·4 ; less by 1°·2.
 Mean Daily Range, 14°·0 ; less by 0°·4.
 Mean of Black Bulb in Sun ; 93°·8 ; greater by 4°·5.
 Do. at Night, 44°·6 ; greater by 0°·6.
 Mean Humidity, 84 ; being the average.
 Rain, Number of Days, 19 ; greater by 3.
 Rain, Depth in Inches, 4·78 ; greater by 1·23 inch.
 Wind, Pressure on Square Foot, 1·50 lb. ; greater by 0·15 lb.
 Wind, Direction of, E. to W. as 4 to 13, and N. to S. as 7 to 6 ; in place of E. to W. as 5 to 11, and N. to S. as 5 to 7.
 Hours of Sunshine, 129 ; less by 47.
 Mean Amount of Cloud, 6·9 ; greater by 0·4.

SEPTEMBER 1894—

Mean Barometric Pressure, 30·217 inches ; greater than the average of 1856–93 by 0·373 inch.
 Monthly Range, 0·675 inch ; less by 0·490 inch.
 Mean Temperature, 51°·2 ; less by 1°·6.
 Mean Daily Range, 15°·3 ; greater by 1°·5.
 Mean of Black Bulb in Sun, 87°·4 ; greater by 5°·0.
 Do. at Night, 38°·7 ; less by 1°·9.
 Mean Humidity, 83 ; less by 3.
 Rain, Number of Days, 8 ; less by 8.
 Rain, Depth in Inches, 0·53 ; less by 3·14 inches.
 Wind, Pressure on Square Foot, 1·08 lb. ; less by 0·55 lb.
 Wind, Direction of, E. to W. as 8 to 7, and N. to S. as 10 to 3 ; in place of E. to W. as 5 to 11, and N. to S. as 5 to 7.
 Hours of Sunshine, 130 ; less by 12.
 Mean Amount of Cloud, 6·2 ; less by 0·1.

Hence JULY 1894 has been characterised by an atmospheric pressure a little under with a range greatly above the average ; a temperature and daily range above the average ; and a slight excess of easterly wind and rainfall.

At North Unst atmospheric pressure was the average, but at extreme south and west stations it was 0·070 inch under it. Pressure in Shetland and on the Tweed was nearly the same, with, however, a shallow depression extending from the Hebrides to Orkney. Owing to the comparative uniformity of pressure, winds were lighter than usual, and owing to the depression above referred to, east and south-east winds were in excess of the average.

The distribution of temperature over the country was very unequal, being only half-a-degree above the average in Strathtay, but from 3°·0 to 4°·0 in Shetland, Orkney, and the Hebrides. The July of 1894 was for warmth and dryness the finest summer month ever known to have occurred in Shetland. The absolute highest temperature was 87°·0 at Forres on the 2nd, and the lowest 35°·0 at Stobo on 23rd.

The mean rainfall was 3·64 inches or 14 per cent. above the average. Its distribution was most unequal, being considerably more than double the average at several places near the Moray Firth and the Pentland Firth, the excess being in percentages, 173 at Gordon Castle, 150 at Dunnet Head, and 138 at Stornoway. In the south of Orkney about double the usual rainfall was collected, but in the north of Orkney, over Shetland, and the central parts of the Hebrides, it was under the average, being in some places only half the usual amount. To the south of the Grampians,

except the counties of Perth, Fife, Haddington, and Berwick, the rainfall was under the average, the deficiency being generally from a fourth to a half. At Gordon Castle there fell 1·23 inch on the 3rd, 1·31 inch on the 13th, and 1·47 inch on the 22nd.

Thunderstorms were very frequent, being recorded at 50 stations, with a mean of three to each station, and Auroras are reported from three places.

The weather characteristics of AUGUST 1894 have been a large rainfall distributed over a larger number of days than usual; a temperature and pressure under the average; and a marked prevalence of N.E., N., N.W., and W. winds, these being five days above the average.

Pressure was again under the average, the greatest deficiency being 0·094 inch at North Unst, whereas at extreme western stations pressure was the average. This distribution of pressure gave steeper barometric gradients than usual, resulting in a greater wind force; and as pressure was markedly higher at western than at eastern stations, northerly winds blew with more than average frequency.

The mean temperature was 1°·2 under the average, and was very irregularly distributed over the country, being about a degree above the average in the north-west, Orkney and Shetland; but on the other hand, it was about two degrees under the average at the more southern stations. The cutting of the grain crops began in the middle of August in Shetland, being considerably earlier than ever previously recorded. The absolute highest temperature was 75°·0 at Dumbarton on the 1st, and the lowest 32°·0 at Stobo on the 25th.

The mean rainfall was 4·78 inches, or 35 per cent. above the average. Except the extreme south-west from Islay to the Solway, the rainfall was everywhere in excess of the average, the great excess being over the east side of Scotland from the Moray Firth to the Cheviots, where at several places double the average was collected. At the northern stations the excess was from a fourth to a half more than usual. In Galloway the amount was generally a fourth under the average.

Thunderstorms are reported from 31 stations with an average of two for each station, and with the thunderstorms, falls of rain, upwards of an inch, were of frequent occurrence. An Aurora was observed at Ladylaw on the 24th at 9 p.m.

SEPTEMBER 1894 showed a higher mean barometric pressure accompanied with a lower monthly range, a smaller rainfall, and a much greater predominance of northerly and easterly winds than any recorded during the past 38 years.

The type of the weather was eminently anti-cyclonic. The centre of highest mean pressure 30·275 inches, was situated over the southern half of the Hebrides, whence it fell in all directions, to 30·135 inches at North Unst, to 30·188 inches at Peterhead, to 30·217 inches at Eyemouth, and to 30·220 inches at the Mull of Galloway. This distribution of the pressure resulted in an extraordinary predominance of north-easterly winds, winds from N.W., N., and N.E. having prevailed on 13 days, while winds from S.E., S., and S.W. prevailed only on 4 days. The mean force of the wind was less than any recorded in September since 1871.

With these north-easterly winds, the mean temperature was 1°·2 under the average with a mean daily range above the average owing to the dryness of air. Pastures were much benefitted by the frequent very heavy dews that occurred. The lowest mean temperatures were in strictly inland situations, being 2°·5 under the average at Fort-Augustus, Wolfelee, Drumlanrig, and Glenlee. On the other hand, a higher temperature was maintained at coast stations, particularly in the west, temperature being nearly the average at a number of places from Islay to North Unst, the absolutely highest temperature was 74°·0 at Craigmarnoch; and the lowest 24°·0 at Stobo on the 28th. In the southern half of Scotland in inland situations, sharp frosts were recorded on the last four nights of the month, injuring dahlias and other tender plants.

The following are the largest recorded rainfalls among the stations; 1·78 inch at Duns Castle; 1·53 inch at Gordon Castle; 1·51 inch at Scourie; 1·49 inch at New Pittligo; and 1·45 inch at Marchmont. The smallest rainfalls are 0·02 inch at Dalkeith; 0·05 inch at Poltalloch; 0·08 inch at Dollar; 0·10 inch at Drumlanrig; 0·11 inch at Rothesay; and 0·13 inch at Dumbarton. A striking feature of the rainfall of this month is that it generally fell in unusually small daily amounts. Thus, while rain fell at Aberdeen on 17 days, the total fall was only 0·62 inch.

Thunder is reported to have occurred at Greenock on the 25th, and lightning at Dalnaspidal on the 22nd; and Auroras at three stations with an average of two to each station.

REGISTRARS' NOTES.

IN compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

INSTRUCTIONS TO REGISTRARS.

“If at any time the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, &c., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance.”

The Figures refer to the Numbers of the Districts in the preceding Tables.

I. NORTHERN DIVISION.

1. SHETLAND.

5 (2). BURRA AND QUARFF.—No deaths, and almost no sickness, in consequence no doubt, of the exceptionally fine weather throughout the summer and autumn.

11. UNST.—Scarlatina prevalent,—two deaths therefrom, and one from Hanging.

12 (1). WALLS. — The exceptionally fine weather and absence of epidemics may account for the low death-rate.

2. ORKNEY.

20. HOY AND GRÆMSAY.—The two deaths registered in August were both caused by drowning.

26. SANDY. — Deaths above the average. Hooping-Cough was imported into the district, and spread, causing three of the nine deaths.

II. NORTH-WESTERN DIVISION.

5. ROSS AND CROMARTY.

Mainland.

58 (1). APPLECROSS.—Hooping-Cough prevalent, and fatal in one case.

6. INVERNESS.

Mainland.

94. CROY AND DALCROSS.—Several cases of Diphtheria and Scarlatina occurred, but all were of a very mild type.

95. DAVIOT AND DUNLIGHTY.—A few cases of Scarlatina occurred, but all of a mild type. Two deaths were caused by suicide, one of a young woman by Hanging; the other of a young man by Drowning.

99 (2). LOCHABER.—Births below, and Deaths above the average. Hooping Cough prevalent, and one death due to that cause.

104. LAGGAN.—One of the three deaths was that of a man who had reached the age of 94 years.

Insular.

111 (1) NORTH HARRIS.—Hooping-Cough and Influenza prevalent, but none of the cases fatal.

113. NORTH UIST.—Hooping-Cough and Scarlatina both prevalent to some extent, the former for four months and the latter for three.

114. PORTREE.—Of the 11 deaths registered, three were of persons aged respectively 88, 84, and 82 years.

117 (1). NORTH SNIZORT.—Typhus Fever appeared in one family, but without fatal results.

II. NORTH-EASTERN DIVISION.

8. ELGIN (or MORAY).

131. DUFFUS.—The large number of Marriages in September is due to the fact that many of the Fishing Population marry at the close of the Herring Fishing.

9. BANFF.

149a. BOYNDIE.—A few cases of Scarlet Fever, of a mild type, have occurred.

155a (2). MACDUFF.—Scarlet Fever prevalent, of a mild type. One case fatal.

10. ABERDEEN.

179. CHAPEL OF GARIOCH.—An outbreak of Diphtheria occurred during August; and of the seven deaths registered two were from that cause.

184. CRIMOND.—The two deaths registered, both of which were in September, were caused by Drowning,—one was that of a man engaged at work on the Lighthouse at Rattray Head, and the other of a child in a pail of water.

191. ECHT.—A case of Typhoid Fever has occurred.

227b. NEW PITSLIGO.—District very healthy. One death (in August) resulted from drowning, and was suicidal.

230. OYNE.—The two deaths registered resulted from the accidental falling in of the side of a drain.

238. SKENE.—Of the five deaths registered, one was of a child which only lived an hour, and four were of persons aged respectively 65, 75, 75, and 79 years.

11. KINCARDINE.

259. FORDOUN.—The six deaths registered were of persons aged respectively 68, 69, 75, 76, 84, and 29 years, the cause of death of the last being Typhoid Fever, two cases of which were in the village at the same time, and which probably may be attributed to bad sanitary arrangements and the filthy state of the streets, there being now no scavenger

264. MARYCULTER.—Of the seven deaths registered, two were of females registered respectively 83 and 85 years. Two deaths occurred suddenly, and were supposed to have been from Heart Disease.

267. ST CYRUS.—A few cases of Typhoid Fever occurred, one of which proved fatal, but on the whole the parish has been healthy.

IV. EAST-MIDLAND DIVISION.

12. FORFAR.

288. FORFAR.—Scarlet Fever prevalent in the Town, but no deaths therefrom. Three deaths were caused by Measles and one by Typhoid Fever.

315. OATHLAW.—The death in September was the result of an accident in the harvest field.

13. PERTH.

330. AUCHTERGAVEN.—There have been several cases of Scarlet Fever, but none fatal.

380. METHVEN.—Of the six deaths registered, one was caused by drowning while bathing, and one was of a male who had reached the age of 94 years.

385. MUCKART.—Only one death registered during the quarter,—that of a female aged 92 years.

393a. ST MARTINS.—Hooping-Cough prevalent. One case fatal.

14. FIFE.

401. ABERDOUR.—Four cases of Enteric Fever occurred, but none of them proved fatal. One death was caused by Hooping-Cough.

420. CUPAR.—Of the 38 deaths registered, 12 occurred in the Fife and Kinross Asylum.

427. ELIE.—Three of the seven deaths registered were of visitors.

433. KEMBACK.—The death registered in September was the result of a bite of a dog.

458b. TULLIALLAN.—Of the four deaths recorded, two were of persons aged respectively 75 and 80 years.

15. KINROSS.

462. KINROSS.—Two of the deaths resulted from Scarlet Fever, and two from Diphtheria. Both diseases have been prevalent.

463. ORWELL.—Three cases of Diphtheria occurred, and all proved fatal, the victims being children under five years of age. There are at present a few cases of Scarlet Fever in the District. A child two years of age fell into a trough of Sheep-dip and was drowned.

16. CLACKMANNAN.

467. DOLLAR.—Of the 8 deaths recorded, seven were of persons aged respectively 64, 70, 71, 73, 75, 79, and 88 years.

V. WEST-MIDLAND DIVISION.

17. STIRLING.

475. CAMPSIE.—Death-rate low. The death of a non-resident was caused by drowning.

479. FALKIRK.—Death-rate during August and September remarkably low.

484. KIPPEN.—One of the deaths in August was of a boy aged 1½ years, who was killed by a railway engine. Scarlet Fever epidemic in the Bucklyvie district, but of a mild type. The public school has been closed.

19. ARGYLL.

Mainland.

513. INVERARAY.—Measles epidemic, but of a mild type.

VI. SOUTH-WESTERN DIVISION.

22. AYR.

576. (1) OLD ARDROSSAN.—One of the deaths, that of a male aged 21 years, was caused by accidental drowning whilst bathing.

577 (1) AUCHINLECK.—Marriages and deaths below the average. This is due to the miners having been on strike during the whole of the quarter. The district is almost entirely inhabited by miners.

578. AYR.—Of the 121 deaths recorded, one was caused by British Cholera, two by Typhoid Fever, five by Drowning, and four by accidents on the railway.

581. BETH.—Measles prevalent in July and August, and eight of the deaths were from that cause.

590. (2) TROON.—This being a summer resort, the population for the quarter is nearly double, yet the death-rate is remarkably low, which speaks well for the sanitary arrangements.

597. KILMARNOCK.—The total registrations for the quarter, 349, show a decrease of 93 as compared with the preceding quarter, and 99 as compared with the corresponding quarter of last year. The decrease is in all the items but especially in the deaths, which are 35 lower than in the previous quarter, and 74 lower than in the same quarter of last year. It may safely be said that Kilmarnock is at present, and has for some time past, been in an unusually healthy state.

607. MUIRKIRK.—Hooping-Cough and Measles prevalent.

614. STAIR.—The parish has been particularly healthy during the quarter, not a single death having occurred. Neither does a marriage fall to be recorded,—the result probably of the miners' strike still in progress.

23. LANARK.

626b. CALDERHEAD. — Both marriages and deaths are considerably below the average, which cannot be accounted for otherwise than by the strike among the miners.

VII. SOUTH-EASTERN DIVISION.

24. LINLITHGOW.

667. KIRKLISTON.—One of the deaths occurred in Drumshoreland Hospital, from Typhoid Fever, and was that of a boy from Dechmont, in the parish of Livingstone.

25. EDINBURGH.

687. GLENCORSE.—Of the six deaths registered, one was caused by Drowning, and another was ascribed to Poisoning by Laburnum seeds.

697. PENICUIK.—Diphtheria was prevalent in the burgh during the quarter, and five of the 25 deaths recorded are attributed to that disease.

26. HADDINGTON.

702. ABERLADY.—Only two deaths registered during the quarter, and both since 25th September.

705. DIRLETON.—One of the four deaths was caused by Diphtheria.

716. PENCAITLAND.—Only one death during the quarter, that of a child ten months old, from Hooping-Cough.

724. WHITTINGHAME.—The only death registered was that of a vagrant.

27. BERWICK.

735. DUNS.—Among the 16 deaths recorded, are those of four women aged respectively 81, 85, 93, and 95 years.

737. ECCLES.—Of the three deaths registered, two were of twins a few days old.

742. GORDON.—The two deaths registered were both of females, and occurred after child-birth.

28. PEEBLES.

767. NEWLANDS.—The four deaths in July were all of infants under twelve months, and were due to Measles, which was then very prevalent. There are now one or two cases of Hooping-Cough.

VIII. SOUTHERN DIVISION.

30. ROXBURGH.

786. CRAILING.—Three of the births are of triplets, and the three deaths are of the same.

797. MAKERSTON. — Hooping - Cough prevalent during the last five or six weeks of the quarter.

798. MAXTON.—The only death registered was that of a child five weeks old, from Hooping-Cough.

31. DUMFRIES.

830. HOLYWOOD.—Of the seven deaths registered, four were of persons aged respectively 89,

81, 72, and 63 years. Two of the other three deaths were of visitors.

854. WESTERKIRK.—Measles prevalent, but of a very mild type.

32. KIRKCUDBRIGHT.

863. CROSSMICHAEL.—One of the four deaths recorded is that of a pedlar who had been only two days in the parish.

33. WIGTOWN.

894. OLD LUCE (or GLENLUCE).—Deaths below the average, the two recorded were of persons aged respectively 81 and 70 years.

898. STONEYKIRK.—Of the 13 deaths registered, the average age of three of the males was 75 years; while that of four of the females amounted to 82½ years.

INDEX TO THE DISTRICTS.

*The Figures refer to the Numbers of the Districts in the preceding Tables of Births, Deaths, and Marriages, these being numbered consecutively from 1 to 901.**

* The actual number of Districts is 1056—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 5 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place *compound* names in the order in which they are pronounced.

Crimond, .	184	Dunfermline, .	424	Fogo, .	740	Haddington, .	709	Kilbirnie, .	965

QUARTERLY REVIEW

Vol. 1.

RELIGIOUS, POLITICAL, AND LITERARY

AND OF THE

PROGRESS OF THE

REVOLUTION

QUARTER ENDING 31st DECEMBER 1804

PUBLISHED BY THE EDITOR OF THE QUARTERLY REVIEW.

THE END

LONDON

1805

REPORT.

DURING the quarter ending 31st December 1894, there were registered in Scotland 31,861 Births, 18,420 Deaths, and 7551 Marriages. Reference to Table III. shows that the Births and Marriages are slightly over, and the Deaths below, the average for the corresponding quarter of the ten previous years.

TABLE I.—Births, Deaths, and Marriages in Scotland, its Groups of Districts and Divisions during the Quarter ending 31st December 1894, with their Proportion to the Population, also the Illegitimate Births, and their Proportion to the Total Births.

	POPULATION.		TOTAL BIRTHS.			ILLEGITIMATE BIRTHS.			DEATHS.			MARRIAGES.		
	Census 1891.	Estimated to middle of 1894.	Number.	Per cent. to Pop.	One in every	Number.	Per cent. to Births.	One in every	Number.	Per cent. to Pop.	One in every	Number.	Per cent. to Pop.	One in every

BIRTHS.

31,861 Births were registered in Scotland during the quarter, being at the annual rate of 306 per ten thousand of the estimated population, or 3·06 per cent.

Births occurred in the Large Town Districts at the rate of 329 for every ten thousand of the estimated population ; in the Principal Town Districts at the rate of 323 ; in the Small Town Districts at the rate of 315 ; in the Mainland-Rural Districts at the rate of 267 ; and in the Insular-Rural Districts at the rate of 229.

In Aberdeen, and also in Leith, the annual Birth-rate for every ten thousand persons was 342; in Glasgow, 333; in Paisley, 320; in Greenock, 318; in Dundee, 301; in Edinburgh, 274; and in Perth, 264.

Of the 31,861 Births, 2219 were illegitimate, being at the rate of 7·0 per cent. In the Insular-Rural Districts, 4·0 per cent. of the Births were illegitimate; in the Large Town Districts, 5·8; in the Small Town Districts, 6·3; in the Principal Town Districts, 7·0; and in the Mainland-Rural Districts, 8·7 per cent.

A comparative statement of the rate of illegitimacy in the Divisions and Counties of Scotland will be found in Tables I. and II. As appears from Table I., illegitimacy stood highest in the North-Eastern and Southern Divisions, the respective rates being 12·0 per cent. for the former, and 11·9 per cent. for the latter. Table II. shows that in nine of the Counties the rate of illegitimacy was over 10 per cent., these Counties being Banff and Dumfries, with 10·1 per cent.; Caithness, with 11·0 per cent.; Roxburgh, with 11·4 per cent.; Aberdeen, with 12·1 per cent.; Kirkcudbright, with 13·0 per cent.; Kincardine, with 13·2 per cent.; Wigtown with 14·4 and Elgin with 14·5 per cent. The lowest rate in any County was Shetland, with 2·0 per cent.; Ross and Cromarty coming next, with 2·5 per cent.

Of the 31,861 Births, 16,381 were of males, and 15,480 of females, being in the proportion of 106 males for every 100 females. 11,087 Births were registered during October, at the rate of 358 daily; 10,288 during November, or 343 daily; and 10,486 during December, or 338 daily.

DEATHS.

The Deaths of 18,420 persons were registered during the quarter, being at the annual rate of 177 for every ten thousand of the estimated population, or 1·77 per cent. This rate is 0·14 per cent. below the average rate for the quarter during the ten preceding years.

The number of Deaths registered in England and Wales during the quarter was 124,287, being at the annual rate of 164 for every ten thousand of the estimated population.

The Death-rate for every ten thousand persons in the Principal Town Districts was 203; in the Large Town Districts, 184; in the Small Town Districts, 171; in the Mainland-Rural Districts, 141; and in the Insular-Rural Districts, 124.

In Leith, the Death-rate for every ten thousand persons was 151; in Dundee, 185; in Perth, 192; in Paisley, 197; in Edinburgh, 198; in Aberdeen, 208; in Greenock, 215; and in Glasgow, 221.

Of the 18,420 Deaths registered, 9173 were of males, and 9247 of females. 5812 Deaths were registered during October, or 187 daily; 5916 during November, or 197 daily; and 6692 during December, or 216 daily.

MARRIAGES.

7551 Marriages were registered in Scotland during the quarter, being at the annual rate of 73 for every ten thousand of the estimated population, or 0.73 per cent.

Marriages occurred in the Principal Town Districts at the rate of 83 for every ten thousand of the estimated population; in the Small Town Districts, at the rate of 67; in the Mainland-Rural Districts, at the rate of 66; in the Large Town Districts, at the rate of 65; and in the Insular-Rural Districts, at the rate of 48.

In Paisley the Marriage-rate for every ten thousand of estimated population was 60; in Dundee and in Greenock, 72; in Leith, 76; in Glasgow, 85; in Edinburgh, 96; in Aberdeen, 98; and in Perth, 101.

1774 Marriages were registered during October, or 57 daily; 1845 during November, or 62 daily; and 3932 during December, or 127 daily.

INCREASE OF POPULATION AND EMIGRATION.

The Births for the quarter having amounted to 31,861, and the Deaths to 18,420, the natural increase of the population is therefore 13,441, no allowance being made for changes caused by emigration or immigration. Of the number of immigrants no reliable estimate can be made; but from the Returns furnished by the Board of Trade it appears that the number of emigrants for the quarter was 50,855, of whom 24,985 were English, 2966 Scottish, 7682 Irish, 13,828 Foreigners, and 1394 whose nationality was not distinguished. Of these last, however, the proportion pertaining to Scotland may be assumed to be 84. If then $2966 + 84$, the number of Scottish emigrants, be deducted from the number representing the excess of Births over Deaths, 10,391 remains as the estimated increase of the population for the quarter.

TABLE IV.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight of the Principal Towns of Scotland, during the Quarter ending 31st December 1894.

DISEASES IN THE ABOVE PRINCIPAL TOWNS.

About 36 per cent. of the population of Scotland, being resident in these towns, it may be held that diseases which are prevalent in them will also be found to a corresponding extent throughout the country.

The total number of deaths in October was 2335, in November 2592, and in December 2780 ; and of these 116 in October, 119 in November, and 104 in December, were unspecified or ill-defined.

Miasmatic Diseases caused 169 deaths in October, or 1·34 per thousand of estimated population ; 270 in November, or 2·22 per thousand ; and 363 in December, or 2·88 per thousand.

Small-Pox caused 3 deaths in October, 15 in November, and 15 in December, all having occurred in Edinburgh.

Measles was stated to have caused 24 deaths in October, or 0·19 per thousand of estimated population ; 67 in November, or 0·55 per thousand ; and 168 in December, or 1·33 per thousand. To Scarlet Fever were attributed 32 deaths in October, or 0·25 per thousand of estimated population ; 38 in November, or 0·31 per thousand ; and 41 in December, or 0·33 per thousand. Hooping-Cough caused 27 deaths in October, or 0·21 per thousand ; 54 in November, or 0·44 ; and 68 in December, or 0·54. To Diphtheria were ascribed 46 deaths in October, or 0·37 per thousand ; 59 in November, or 0·48 ; and 32 in December, or 0·25. Fevers caused 28 deaths in October, or 0·22 per thousand ; 27 in November, or 0·22 ; and 24 in December, or 0·19.

From Diarrhoea and Dysentery there resulted 52 deaths in October, or 0·41 per thousand of estimated population ; 39 in November, or 0·32 ; and 24 in December, or 0·19.

Venereal Diseases were the cause of 14 deaths in October, of 10 in November, and of 11 in December.

Intemperance caused 3 deaths in October, 5 in November, and 7 in December.

Constitutional Diseases caused 459 deaths in October, 424 in November, and 487 in December; and of these 105 in October, 105 in November, and 104 in December, were from Cancer; and 247 in October, or 1·96 per thousand of estimated population; 197 in November, or 1·62 per thousand; and 255 in December, or 2·02 per thousand were from Phthisis.

To Developmental Diseases were ascribed 158 deaths in October, 176 in November, and 165 in December.

To Diseases of the Nervous System were attributed 269 deaths in October, 261 in November, and 279 in December.

Diseases of the Respiratory System caused 452 deaths in October, 660 in November, and 661 in December; and of these 35 in October, 25 in November, and 19 in December were from Croup; 182 in October, 317 in November, and 297 in December from Bronchitis; and 171 in October, 256 in November, and 256 in December from Pneumonia.

From Diseases of the Digestive System there resulted 169 deaths in October, 184 in November, and 195 in December.

Diseases of the Urinary System caused 85 deaths in October, 77 in November, and 68 in December.

Parturition, or conditions in connection therewith (including Puerperal Fever), caused 26 deaths in October, 15 in November, and 21 in December.

To Violent Causes were ascribed 88 deaths in October, 75 in November, and 112 in December.

WEATHER.

The following remarks on the weather of the quarter are extracted from the Meteorological Returns which appear in the Registrar-General's Monthly Reports :—

October was characterised by a barometric pressure and range considerably above the average; a temperature fully a degree under, and mean daily range nearly two degrees above, the average, and, just as in the preceeding month, a marked predominance of easterly and northerly winds.

November was remarkable for a mean temperature higher than any recorded for this month by the Society. Barometric pressure was rather low, but much lower than the average at northern than at southern stations, with the accompanying result of an unwonted predominance of south-westerly winds, blowing with a mean force greatly above the average.

December was remarkable for a temperature considerably above the average, a barometric pressure above, and range very much above, the average, a rainfall under the average; and for two storms, one on the 21st–22nd, and the other on the 28th–30th, which will be long remembered for their severity and disastrous effect on sea and land.

The mean height of the barometric column, reduced to sea-level and 32° Fahr., was 29·923 inches in October, 29·755 inches in November, and 29·825 inches in December. The mean temperature for the quarter was 43°·0, being 1°·5 above the average mean temperature for the quarter during the previous ten years. The mean temperature during October was 45°·2, during November 44°·3, and during December 39°·6. The absolute highest temperature was 68°·0 in October, 61°·9 in November, and 60°·4 in December; the absolute lowest being 12°·0 in October, 18°·0 in November, and 15°·0 in December. Rain fell on 16 days during October, on 17 during November, and on 18 during December; the mean depth being 3·34 inches during October, 3·63 during November, and 3·84 during December. Winds with an easterly direction blew on 12 days in October, on 3 in November, and on 4 in December. Winds with a westerly point blew on 8 days in October, on 18 in November, and on 19 in December. Northerly winds blew on 10 days in October, on 3 in November, and on 9 in December. Southerly winds blew on 9 days in October, on 17 days in November, and on 12 days in December.

N.B.—Districts containing Parliamentary and Royal Burghs are printed in capitals, thus :—EDINBURGH. Districts containing Towns of 2000 Inhabitants and upwards are printed in small capitals, thus :—CARLUKE.

An asterisk “*” is prefixed to those Districts which have different names from the Parishes in which they are situated, or are comprised of more, or parts of more, than one Parish, and the component parts of these Districts will be found on page 48.

A dagger “†” is prefixed to those Districts which consist of only a part of the Civil Parish of the same name.

METEOROLOGICAL REPORT

FOR THE MONTHS OF

OCTOBER, NOVEMBER, DECEMBER.

1894.

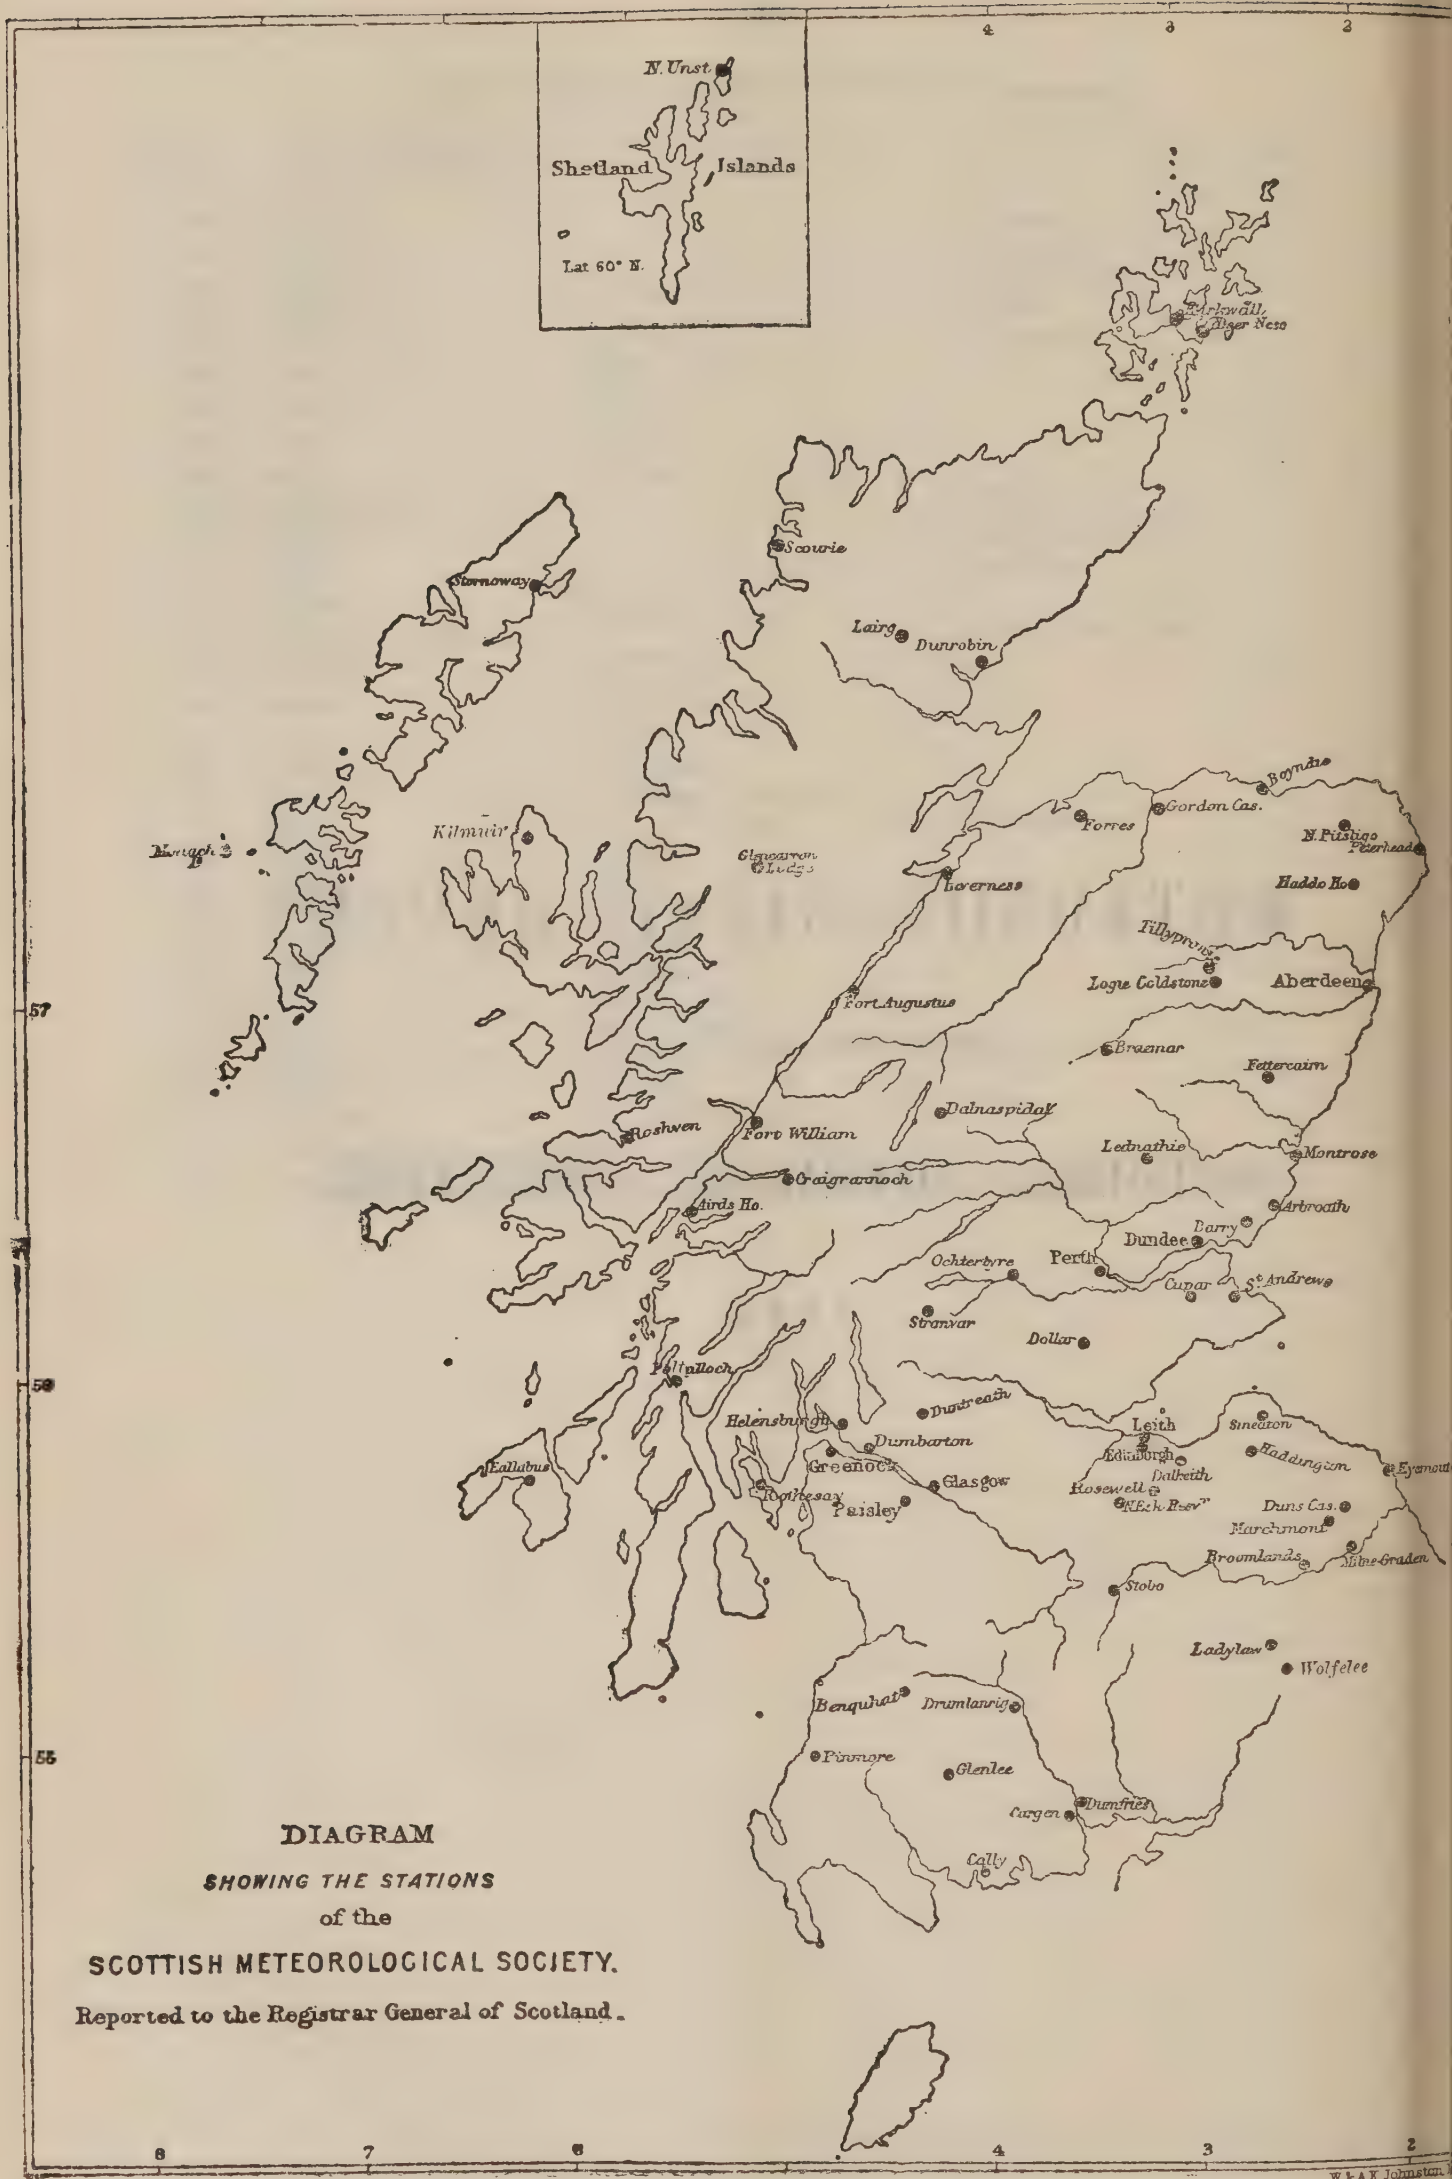

DIAGRAM
SHOWING THE STATIONS
of the
SCOTTISH METEOROLOGICAL SOCIETY.
Reported to the Registrar General of Scotland.

NOTES ON THE NUMERICAL RETURNS OF SCOTTISH METEOROLOGY
FOR THE QUARTER ENDING 31ST DECEMBER 1894.

By Dr BUCHAN, under the Direction of the Council of the Scottish Meteorological Society.

THESE returns are founded on the observations made, morning and evening, at 67 of the Stations of the Scottish Meteorological Society, and have been prepared from the Observers' separate schedules.

From the individual results for each station, the following collective results have been obtained, assuming them to have been equally well observed, and to represent the whole country :—

COLLECTED RETURNS FOR ALL THE ACCEPTED STATIONS OF THE SCOTTISH METEOROLOGICAL SOCIETY, HAVING A MEAN LATITUDE = $56^{\circ} 32'$ N.; MEAN LONGITUDE = $3^{\circ} 44'$ W.; AND MEAN ELEVATION = 283 Feet.

When these results are compared with the average of 1856-93, during the same months, they show the following characteristics and differences :—

OCTOBER 1894—

Mean Barometric Pressure, 29.923 inches ; greater than the average of 1856-93 by 0.117 inch.

Monthly Range, 1.775 inch ; greater by 0.295 inch.

Mean Temperature, $45^{\circ} 2$; less by $1^{\circ} 2$.

Mean Daily Range, $14^{\circ} 0$; greater by $2^{\circ} 1$.

Mean of Black Bulb in Sun, $70^{\circ} 0$; greater by $1^{\circ} 5$.

Do. at Night, $34^{\circ} 7$; less by $0^{\circ} 7$.

Mean Humidity, 86 ; less by 1.
 Rain, Number of Days, 16 ; less by 1.
 Rain, Depth in Inches, 3·34 ; less by 0·71 inch.
 Wind, Pressure on Square Foot, 1·29 lb. ; less by 0·65 lb.
 Wind, Direction of, E. to W. as 9 to 6, and N. to S. as 7 to 6 ; in place of E. to W. as 5 to 10, and N. to S. as 5 to 7.
 Hours of Sunshine, 96 ; less by 9.
 Mean Amount of Cloud, 6·2 ; less by 0·2.

NOVEMBER 1894—

Mean Barometric Pressure, 29·755 inches ; less than the average of 1856–93 by 0·066 inch.
 Monthly Range, 1·726 inch ; greater by 0·185 inch.
 Mean Temperature, 44°·3 ; greater by 3°·7.
 Mean Daily Range, 10°·6 ; greater by 0°·2.
 Mean of Black Bulb in Sun, 60°·8 ; greater by 5°·2.
 Do. at Night, 34°·0 ; greater by 3°·6.
 Mean Humidity, 85 ; less by 3·3.
 Rain, Number of Days, 17 ; greater by 1.
 Rain, Depth in Inches, 3·63 ; less by 0·19 inch.
 Wind, Pressure on Square Foot, 2·24 lbs. ; greater by 0·38 lb.
 Wind, Direction of, E. to W. as 2 to 13, and N. to S. as 2 to 12 ; in place of E. to W. as 5 to 10, and N. to S. as 6 to 6.
 Hours of Sunshine, 65 ; less by 8.
 Mean Amount of Cloud, 5·9 ; less by 0·57.

DECEMBER 1894—

Mean Barometric Pressure, 29·825 inches ; greater than the average of 1856–93 by 0·034 inch.
 Monthly Range, 2·062 inches ; greater by 0·497 inch.
 Mean Temperature, 39°·6 ; greater by 1°·8.
 Mean Daily Range, 10°·7 ; greater by 1°·1.
 Mean of Black Bulb in Sun, 49°·6 ; greater by 1°·8.
 Do. at Night, 29·2 ; greater by 0·8.
 Mean Humidity, 86 ; less by 2·3.
 Rain, Number of Days, 18 ; greater by 2.
 Rain, Depth in Inches, 3·84 ; less by 0·13 inches.
 Wind, Pressure on Square Foot, 2·63 lbs. ; greater by 0·64 lb.
 Wind, Direction of, E. to W. as 3 to 13, and N. to S. as 6 to 8 ; in place of E. to W. as 4 to 12, and N. to S. as 5 to 8.
 Hours of Sunshine, 38 ; less by 19.
 Mean Amount of Cloud, 6·4 ; less by 1.

Hence the month of OCTOBER 1894 was characterised by a barometric pressure and range both considerably above the average ; a temperature 1°·2 under, and mean daily range 2°·1 above, the average ; a large excess of northerly and easterly winds, and a deficiency of southerly and westerly winds.

Barometric pressure was 0·105 inch above the average on the Solway, but in Shetland the excess amounted to 0·234 inch, resulting in a diminished gradient from south to north, in accordance with which the force of the wind was 0·65 lb. on the square foot less than the mean of the month ; and, further, pressure being relatively higher in the west than in the east, north-easterly winds were largely in excess.

During the first three weeks the prevailing type of weather was anticyclonic, with the invariable accompaniments of high barometers, a dry atmosphere, and large daily range of temperature, a range being only twice exceeded since 1856, viz., in 1879 and 1880, and then by only 0°·2 and 0°·3. The deficiency of temperature was almost wholly due to the greater cold of the nights, since, while the days were only 0°·2 under the average, the nights were 2°·3. The distribution of temperature over the country was rather unequal, the greatest deficiency, about 2°·0 being in inland districts south of the Grampians ; whereas to the south of a line drawn from Monach to Fladda, and thence to Islay, mean temperatures were from half a degree to a degree above the average. The absolutely highest temperature was 68°·0 at Eallabus on the 13th, and the lowest 12°·0 at Stobo on the 23rd.

The mean rainfall was 3·34 inches, or 18 per cent. under the average. It was most unequally distributed over the various districts. Except in two districts, it was everywhere under the average, the greatest deficiency, from 60 to 80 per cent., occurring in the

counties of Ross, Inverness, and Argyll, and the Western Islands. On the other hand, the rainfall was above the average at stations in the extreme south-west, and at eastern stations from the Grampians to the Cheviots; from the coast to about 30 miles inland, the excess in Berwickshire being a half more than the average of October.

Thunder or lightning occurred at Lednathie and Cally, one day at each place; and Auroras are reported from 11 stations, all to the north of the Forth and Clyde, giving a mean of three for each station.

NOVEMBER 1894 was characterised by a rather low pressure, with a range much above the average, and much greater at western than at eastern stations; a great excess of strong south-westerly winds, but principally by a very high temperature which has been only exceeded by that of November 1881.

Barometric pressure was 0·040 inch less than the average on the Solway, but in Shetland it was 0·170 inch, showing thus a geographical distribution the reverse of what obtained in October; and also, while the diminution was 0·087 inch at Aberdeen, it was 0·164 in the Outer Hebrides. The result of this distribution of the pressure was the formation of much steeper gradients than usual for south-westerly winds, and, accordingly, winds from S.S.W. and W. prevailed on 22 days, being 9 days above the average, the highest yet recorded; the force of these winds was also in excess of the average.

The excess of mean temperature, $3^{\circ}\cdot7$ above the average, was nearly equally partitioned between the nights and the days; that of the nights being only slightly greater. This high temperature was distributed over Scotland with remarkable equableness, the only noteworthy feature being a greater excess than elsewhere in strictly inland situations, just as happens in times of high temperature at this season of the year. The absolutely highest temperature was $61^{\circ}\cdot9$ at Gordon Castle on the 2nd, and the lowest $18^{\circ}\cdot0$ at Stobo on the 24th.

The mean rainfall was 3·63 inches, or 5 per cent. under the average. The distribution of the rainfall over the country was again very unequal. In Galloway it was above the average; and also to the west and south of a line drawn from the Butt of Lewis to Fort Augustus, Ochertyre, and thence to Crinan, the excess being above 50 per cent. in the south-west of Inverness. In all other places the rainfall was under the average, in some districts very greatly so, the deficiency being about 80 per cent. at stations immediately south of the Moray Firth, and 60 per cent. from the Firth of Forth to the Tweed. Mr Mossman records a case of rain falling in Edinburgh from a cloudless sky at 11 p.m. of the 16th.

Thunder or lightning occurred at seven stations, with a mean of one for each station; and Auroras at 25 stations, with a mean of two for each station, the Auroras being well distributed among the stations.

In DECEMBER 1894 barometric pressure was above the average, with a range very greatly above the average; mean temperature nearly two degrees above the average, with a daily range in excess of that of the month; rainfall nearly the mean. The storms of the 21st–22nd and the 28th–30th will be long remembered for their severity and disastrous effects on sea and land.

Barometric pressure was 0·060 inch above the average on the Solway, but 0·038 inch under it at North Uist, thus forming gradients for westerly winds of greater frequency and strength than usual; and in accordance therewith, these winds prevailed two days in excess of the average, and with a force 0·64 lb. to the square foot above the mean. In addition to its great severity and wide-spread devastation involving the loss of many lives and much valuable property, both on land and sea, the storm of the 21st–22nd is noteworthy for the phenomenal variations of pressure which accompanied it, the hourly amounts of increase of pressure at Leith from 8 a.m. to 2 p.m. being 0·125, 0·200, 0·213, 0·177, 0·157, and 0·152 inch. The velocity and force of the wind were greater in several places than any previously recorded.

The mean temperature was $39^{\circ}\cdot6$, or $1^{\circ}\cdot8$ above the average, the days being relatively warmer than the nights. The excess of the temperature above the average was pretty evenly distributed over the country, the greatest excess being in inland situations in the south. The absolutely highest temperature was $60^{\circ}\cdot4$ at Glenlee on the 11th, and the lowest $15^{\circ}\cdot0$ at Braemar on the 4th.

The rainfall was nearly the average on a mean of all the stations, but it was somewhat irregularly distributed. Thus, at north-western stations, the amounts were a third above the average; but in the east, from Buchanness to the Tweed for some distance inland, the amounts were a third under the average. In other districts the rainfall varied but little from the average. At such stations as Braemar and Glencarron very heavy falls of snow were reported.

Thunder or lightning occurred at eight stations, with a mean of one for each station; and Auroras are reported from six stations, one occurring at each station.

REGISTRARS' NOTES.

IN compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

INSTRUCTIONS TO REGISTRARS.

“If, at any time, the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, &c., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance.”

The Figures refer to the Numbers of the Districts in the preceding Tables.

I. NORTHERN DIVISION.

1. SHETLAND.

1. BRESSAY.—Hooping - Cough prevalent in October and November; and the deaths of two infants, aged respectively 9 and 12 weeks, are attributable to that cause.

3. CAITHNESS.

34. BOWER.—The ages of the five persons whose deaths were registered were 94, 92, 82, 75, and 55 years respectively.

II. NORTH-WESTERN DIVISION.

5. ROSS AND CROMARTY.

Mainland.

71a (1). KINCARDINE.—While only one marriage was registered here, three couples from this district were married elsewhere. There is a considerable amount of sickness in the district, chiefly colds. The ages of the two persons whose deaths are recorded were 87 and 86 years respectively.

75 (1). LOCHBROOM.—Only one marriage registered during the year, although the population of the district is nearly 3000.

6. INVERNESS.

Mainland.

94. CROY AND DALCROSS.—Several cases of

Scarlatina occurred, but all were of a very mild type.

95. DAVIOT AND DUNLIGHTY.—Births (2) the smallest number on record. The only death was that of a boy, six years of age, from Diphtheria. A few cases of Scarlatina of a mild type occurred.

97 (2).—KNOYDART.—The death registered was that of a young man who was drowned by the swamping of an open boat.

103. KIRK HILL.—There has been a slight outbreak of Diphtheria, from which one death resulted.

104. LAGGAN.—Number of deaths abnormally large. Of the five recorded, two were from Diphtheria.

Insular.

111 (1). NORTH HARRIS.—Scarlet Fever prevalent.

III. NORTH-EASTERN DIVISION.

7. NAIRN.

120. ARDCLACH.—Only seven deaths recorded during the year, out of a population of 942.

9. BANFF.

152. ENZIE.—Of the 36 persons whose deaths were registered during the year, 18 were aged upwards of 60 years, the average being 75. Six of the persons who died were between 60 and 70 years of age, seven between 70 and 80, two between 80 and 90, and three over 90 years. The annual average number of births, deaths, and marriages for the past 40 years has been 73, 37, and 14 respectively. The numbers for 1894 are 57, 36, and 11. The number of births was only once less than that for the past year, viz., in 1862.

157 (1). INVERAVON.—The two persons who died during the quarter were aged 79 and 85 years respectively.

10. ABERDEEN.

174. BELHELVIE.—Of the four deaths, two were caused by Membranous Croup, and were of children under six years of age.

183 (1). BRAEMAR.—Of the four deaths recorded, three were of children, and resulted from Diphtheria. Stringent precautions were taken by the sanitary authorities, and the farther spread of the disease prevented.

186. CULSAMOND.—The two deaths were of males aged respectively 72 and 79 years.

214. LEOCHEL-CUSHNIE.—One of the schools has been twice closed, owing to an outbreak of Scarlet Fever.

224. MONYMUSK.—Births for the year rather above the average. In some cases elderly people have been replaced by younger, and wood cutting has brought others to the parish. There are only two deaths for the quarter, both of children, aged respectively one day and three days.

229. OLD MELDRUM.—Scarlatina prevalent, but as yet without fatal results.

231 (1). EAST PETERCULTEE (Landward).—Of the six deaths recorded, two were aged respectively 74 and 90 years.

233. PITSLIGO.—The number of deaths in 1892 was 32,—a little below the average. In 1893 it was 49 (14 being from Measles in Roseheart). This year the deaths amount to 50—a number which has never been exceeded, and has been only reached twice, viz., in 1887 and 1882. The population was larger at these dates than at present.

243. TARVES.—Of the 14 deaths registered during the year, seven were of persons whose respective ages ranged from 74 to 89 years.

IV. EAST-MIDLAND DIVISION.

12. FORFAR.

311. MONIKIE.—The two deaths in December occurred in one family, and were caused by Diphtheria. One death in October and another in November resulted from Violence.

13. PERTH.

324. ABERFELDY.—Births for the year under the average. Illegitimacy increasing, being about 25 per cent. of the whole. Deaths above the average; a large proportion, however—nearly a fourth of the whole—were of persons over 80 years of age.

325. ABERFOYLE.—Deaths above the average. Three of those in December were of children, and were caused by Diphtheria. One death in the same month was caused by Croup. Kinlochard School has been closed on account of the outbreak of Diphtheria.

328a. ALYTH.—The ages of nine of the 16 persons whose deaths were recorded during the quarter ranged from 72 to 84 years. Deaths for the year below the average.

328c. ARNGASK.—Several cases of Scarlet Fever occurred during the quarter, and two of the cases proved fatal.

330. AUCHTERGAVEN.—Births and deaths during the past year under the average. Scarlatina still prevalent, and the public school closed in consequence.

334. BLAIR-ATHOL.—The death registered in December was that of a man aged 93 years.

355a (2). FORTINGALL.—Several marriages of persons resident in the district have taken place during the year, but it is getting customary to celebrate these at a convenient centre, such as Perth.

373. LITTLE DUNKELD.—Of the 17 deaths registered, 11 occurred in the Murthly Asylum. Nine proclamations of marriage were made in the parish church during the quarter, but the marriages often, for convenience, take place in Perth, and of course are registered there.

380. METHVEN.—Death-rate for the three months unprecedentedly low. One of the three deaths was caused by Diphtheria.

385. MUCKART.—The ages of the two persons whose deaths were recorded were respectively 75 and 76 years.

387. PERTH.—The characteristic of the quarter has been the mortality among young persons, caused mainly by an epidemic of Diphtheria. Two of the persons who died were aged respectively 98 and 95 years.

389. RATHAY.—Of the 12 deaths registered during the quarter, three were of persons aged respectively 80, 85, and 95 years.

14. FIFE.

401. ABERDOUR.—One death resulted from Scarlet Fever, and another from Hooping-Cough.

420. CUPAR.—Of the 38 Deaths registered, seven occurred in the Fife and Kinross Asylum.

426. DYSART.—Deaths above the average. Scarlet Fever and Hooping-Cough proved fatal in several cases, and Typhoid Fever in two.

427. ELIE.—Of the six deaths registered, one was that of a visitor, and another was caused by Drowning, owing to the upsetting of a small open boat.

439. KINGHORN.—The small number of marriages registered in Kinghorn is partly accounted for by the Roman Catholic part of the population going to the chapel in Kirkcaldy to be married.

458b. TULLIALLAN.—One of the eight deaths was that of a child, aged one year, from Diphtheria.

459 (1). WEMYSS.—The death of a male, aged 100 years, was registered here in December.

15. KINROSS.

462. KINROSS.—The epidemic of Scarlet Fever noted in last return still continues, and resulted in two deaths.

V. WEST-MIDLAND DIVISION.

17. STIRLING.

475. CAMPSIE.—Of the 15 deaths registered, one was that of a male child, whose body was found in a compartment of a railway train which had arrived from Glasgow; and two were of children resident in Strathblane parish, who died of Scarlet Fever, and had been brought to the fever hospital in Lennoxton.

484. KIPPEN.—Death-rate over the average. An epidemic of Scarlet Fever was prevalent in the Buchlyvie district, from which one death occurred; and two from Diphtheritic Croup following Scarlet Fever.

485. LARBERT.—Of the 210 deaths recorded during the year, 46 were of patients in the District Asylum, and 18 of patients in the Imbecile Institution.

18. DUMBARTON.

500. NEW OR EAST KILPATRICK.—Of the 31 deaths recorded, three were caused by Accidental Drowning in the Forth and Clyde Canal.

19. ARGYLL.

Mainland.

514. INVERCHAOLAIN.—The only death registered resulted from a carriage accident. Parish very healthy.

525 (1). LISMORE.—Three marriages occurred, but were celebrated out of the district.

Insular.

545. KINLOCHSPELVIE.—The death registered in December was of a male whose body was washed ashore.

20. BUTE.

554 (1). KILMORY.—The number of marriages for the year is diminished through contracting parties going to the mainland to be married.

VI. SOUTH-WESTERN DIVISION.

21. RENFREW.

565. HOUSTON AND KILLELLAN.—The only death registered in December was caused by Accidental Drowning.

570. LOCHWINNOCH.—Of the six deaths registered in December, four were caused by the collapse of a cabinet factory during the storm on the 22nd.

22. AYR.

578. AYR.—Two of the deaths resulted from railway accidents, and four from the falling of a house during the December storm.

581. BEITH.—Hooping-Cough prevalent, and caused ten deaths.

583 (1). COYLTON.—Scarlatina prevalent, and one case fatal.

594. GIRVAN.—Deaths above the average, owing to an accident by which a family of four persons were burned to death on 22nd December.

607. MUIRKIRK.—One of the deaths was of a person aged 91 years.

23. LANARK.

622 (2). SHETTLESTON (Landward).—Increase in deaths during November and December was due to an unusually severe epidemic of Measles, most of the cases of which were followed by Pneumonia.

632 (2). FORTH.—Births and marriages considerably below the average, for which no reason can be assigned, except the strike among the miners, many of whom removed from the district. Two of the deaths during the quarter resulted from pit accidents.

641. DOUGLAS.—Births and marriages about the average. Deaths below it, not only for the quarter, but also for the whole year. Only 25 deaths were registered during 1894—a smaller number than has been registered since the Act came into force. It cannot be attributed to a decrease of population, because the population is increasing, but to the sanitary measures which have been introduced, and the healthy condition of the people after the effects of Influenza. A few cases of Scarlatina occurred, but the disease never assumed an epidemic form.

652 (1). WESTERN DISTRICT OF OLD MONKLAND.—Deaths above the average, in consequence of an outbreak of Measles.

VII. SOUTH-EASTERN DIVISION.

24. LINLITHGOW.

667. KIRKLISTON.—A mild type of Scarlet Fever very prevalent, but no deaths therefrom.

25. EDINBURGH.

678. CORSTORPHINE.—Of the four females who died during the quarter, the united ages of three amounted to 257 years.

695. NEWBATTLE.—Deaths for the quarter about the average, but for the whole year the number is the smallest that has yet been recorded. Three were accidental.

697. PENICUIK.—Scarlet Fever and Diphtheria were prevalent during the quarter. Two of the deaths are ascribed to Diphtheria.

26. HADDINGTON.

705. DIRLETON.—One of the deaths was caused by Diphtheria.

706. DUNBAR.—In consequence of the stoppage of the paper mills many families have left the parish, and, as trawling is rapidly superseding the line fishing, the number of fisher families is gradually diminishing also, and for these reasons the number of births registered during the year is below the average.

717. PRESTONKIRK.—Of the eight deaths registered, four were of persons above 80 years of age, one was aged 79 years, and the remaining three were of children under one year.

723. WHITEKIRK AND TYNNINGHAME.—Scarlet Fever prevalent in north side of parish, but in no case fatal.

27. BERWICK.

727. AYTON.—An epidemic of Scarlet Fever occurred at Burnmouth, and two deaths resulted therefrom. The only death in December was caused by a railway accident.

737. ECCLES.—The only death registered is that of an infant who survived only ten minutes.

740. FOGO.—The only deaths registered were of persons aged respectively 86 and 80 years.

741. FOULDEN.—Two cases of Diphtheria occurred in October, but happily with no fatal results.

749. LEGERWOOD.—No marriages in the parish during the year, although several parishoners have been married.

28. PEBBLES.

759. DRUMELZIER.—The death registered in December is that of a tramp found in a dying state among the hills by a shepherd.

767. NEWLANDS.—Hooping-Cough prevalent, but no deaths therefrom.

771. TRAQUAIR.—Of the three deaths registered during the year, one was caused by Drowning.

VIII. SOUTHERN DIVISION.

30. ROXBURGH.

784. CASTLETON.—The number of deaths this quarter has been increased by two railway accidents.

799 (1). MELROSE.—Of the 66 deaths registered in 1894, 15 were from the District Lunatic Asylum, and all belonged to other parishes than Melrose.

807. SPROUSTON.—One of the two deaths in December was suicidal.

31. DUMFRIES.

826. GLENCAIRN.—This is the only quarter since the act came into operation in which no deaths have been recorded. The death-rate for the year is the lowest on record.

837 (2). SOUTHERN DISTRICT OF KIRKPATRICK-FLEMING.—The three deaths registered during the quarter were those of inmates of the Poorhouse, and belonged to other parishes. Of the 18 deaths during the year, five were of inmates of the Poorhouse belonging to other parishes.

840. LOCHMABEN.—Death-rate for the quarter very low. The death-rate for the whole year is also exceptionally low, and has only been lower in two years since 1855, viz., 1860 and 1868. There has been a marked absence of Zymotic Diseases, and a large proportion of the deaths were of aged people.

848. SANQUHAR.—The number of births is the largest which has been registered for many years, an increase of the population having taken place during the last year through the extension of the coal workings. There is also a corresponding increase in the number of deaths and marriages.

854. WESTERKIRK.—Measles of a mild type, affecting more or less all the children attending the public school, as well as a few adults, prevailed in September and October, but no deaths resulted therefrom.

33. WIGTOWN.

897. SORBIE.—Of the nine deaths recorded, one was the result of a railway accident, one was caused by Hooping-Cough, and three were from Phthisis Pulmonalis.

INDEX TO THE DISTRICTS.

*The Figures refer to the Numbers of the Districts in the preceding Tables of Births, Deaths, and Marriages, these being numbered consecutively from 1 to 901.**

Ardclach,	120	Barrhill,	582	Brydekirk,	813	Channelkirk,	729	Crieff,	342

* The actual number of Districts is 1056—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 5 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place compound names in the order in which they are pronounced.
